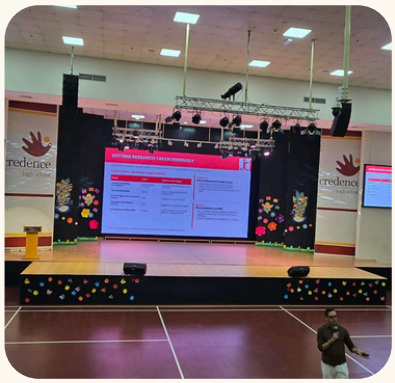
CREDENCE HIGH SCHOOL

Exploring Higher Education Pathways in Indian and International Universities

Grades 10 and 12

Date
Wednesday, 14 October 2026



INTENT

The career guidance session on "Exploring Higher Education Pathways in Indian and International Universities", conducted by Mr. Jitin Chawla on 14 October 2026, introduced students to diverse higher education opportunities across disciplines and emerging interdisciplinary fields. The session provided information on university selection, eligibility criteria, standardised tests and application procedures. Students also gained an understanding of profile development through research, internships, projects and leadership experiences.

EXPERIENCE

The session aimed to empower students to make informed decisions about their future academic and career pathways. It sought to help them align their subject choices and university options with their interests, strengths and aspirations. It also aimed to familiarise students with admission requirements, application timelines and preparation strategies while encouraging meaningful academic engagement, leadership and extracurricular participation.

INSIGHT

The session highlighted that a strong university application extends beyond academic grades to include intellectual curiosity, initiative, character and sustained involvement. Students gained an understanding of the importance of depth of engagement and demonstrable impact rather than simply accumulating participation certificates. The discussion emphasised early planning, appropriate subject selection and documenting meaningful experiences. It encouraged students to explore diverse opportunities and build a well-rounded profile aligned with their long-term academic and career goals.
