

## *XSEED*

Xseed is global K-8 learning company headquartered in Singapore. Xseed believes that Skills are built through repeated experiences of trying things on one's own, failing, getting feedback and then trying again in order to succeed. This can be best instilled in the formative years between 3 and 13 when the brain has the maximum flexibility to adapt and learn. However, learning is a journey that must continue life-long. Xseed is a part of Scholars since its inception and kids are developing its confident students with good communication skills even at Pre-Primary level. XSEED is a proven and research based academic program for schools that builds thinking skills & problem solving confidence in children. XSEED children ask more questions, can write in their own words, like doing word problems in mathematics, can complete their homework on their own, are not afraid to speak-up in English, persist longer in solving problems, and score well on tests.
