CREATE LAB

Create Lab designs, develops and deploys scalable, high impact learning experiences in emerging and frontier markets to inspire children to create with technology and prepare them to become 21st Century Leaders. Create Lab's popular coding, robotics and design thinking courses have been recognised as Singapore's leading Computational Thinking enrichment programs. Create Lab has been recognised as Singapore's Best Coding School by Parents World Magazine and a Top-10 start-up by CLSA. Launched in 2015, Create Lab is now present in several regional countries. Scholarites are benefitting from tie up with labs.
