

**MBS INTERNATIONAL SCHOOL
TECHIES CLUB ACTIVITY
SESSION 2022-23**

Name of the Activity : FLASH ANIMATION
Theme : NATURE
Date : November 16, 2022
Class : VIII
Activity Incharge :Ms Rishu Kaul

Glimpse of the Event

Objectives:

- To develop animation and designing skills.
- Students will get familiar with Flash tools and create the best of their animations using Adobe Flash CS6

“Creativity is nothing but a way to solve new problems.”

Animation is magical. We can conjure ourselves on the other side of the earth, we can get right into the machinery of a factory, dive deep into the oceans or move all the way into the body of ourselves to find out how we function. With animation we can describe difficult subjects and show great emotions. All of this is something that you can use when you are about to start making your own animated film.

Keeping this in mind **MBS International School, Sector-11, Dwarka** organized Creating a short animation in Flash competition for the students of class VIII. Students were asked to create an animation using the Adobe Flash Software , on the given theme.

Students participated with great zeal.It was an enriching experience for the participants as they learnt various tools and techniques of the software . The students created greate animations, where images, movement and sound made their story come alive.

Parameters/ Judgement criteria

- Impact
- Aesthetics of display
- Use of Images
- Originality of work
- Quality and Smoothness of Animation.

Result (Grade VIII)

S.NO	Student Name	Class	Positions
1.	Akshat Sinha	VIII C	1 st
2.	Pushkal Kumar	VIII C	2 nd
3.	Sayyed Ahmed	VIII B	3 rd
