

**MBS INTERNATIONAL SCHOOL
SESSION 2022-23**

**Name of the activity – Making T-Shirt bag without sewing
GRADE -V**

Date- August 3,2022

“Creativity is intelligence having fun”. - Anonymous

While recycling is better than throwing things away, it is even better to do something like making a T-shirt bag that can be reused. Keeping this idea in mind, **MBS International School** conducted ***Making T-shirt bag without sewing Activity*** for Grade V students on August 3, 2022. Students, with the help of their class teachers, made bags from old T-shirts. It was fun filled activity with lots of learning and creativity.

Through this activity, students learnt 3R's i.e., reduce, reuse and recycle and developed the concept of using waste material into useful product which is beneficial for the environment too.
