Date : November 16, 2022  
Class : VI  
Activity Incharge : Ms Rishu Kaul

**Glimpse of the Event**

**Objectives:**

- To develop critical thinking, problem solving and designing skills.
- Students will interact, collaborate, and publish with peers, experts or others employing a variety of digital environments and media.
- Students will exhibit a positive attitude toward using technology that supports collaboration, learning, and productivity.

**“Creativity is nothing but a way to solve new problems.”**

‘Scratch’ is a programming language wherein the world’s largest coding community for children with a simple visual interface allows young people to create digital stories, games and animations. It promotes computational thinking, enhances problem solving skills, creative teaching and learning.

Keeping this in mind **MBS International School, Sector-11, Dwarka** organized Scratch Story Making competition for the students of class VI. Students were asked to create an animation using the scratch software, on the theme ‘Christmas’.

Students participated with great zeal. It was an enriching experience for the participants as they learnt various tools and techniques of the programming language. Many thought provoking stories were created by the students using the same.
