“Mathematics and Art are considered the pinnacle of human creativity.”

Aryabhata Club celebrates Maths Week, annually to develop student’s intuitive higher order thinking skills. This year also it was celebrated to commemorate the birth anniversary of Srinivasa Ramanujan in December, 2021. Aryabhata Club is a brand-new initiative of the school to help the young minds perceive the dreaded subject Mathematics with a positive and rational approach. The club’s aim is to allow all the students experience the benefits, joy and beauty of Mathematics in exciting new ways and dimensions.

The activity ‘Smart Symmetry’ was conducted on December 20, 2021 successfully. The objective of this activity is to explain the importance of Symmetry. Students understood that Symmetry is something that they observe in many places in our lives without even noticing it. It is easily noticeable in various arts, buildings, and monuments. Nature uses symmetry to make things beautiful.

Then they make beautiful snowflakes using origami sheet. Students participated whole heartedly.
