**ENTITY CLUB
HAPPY CLASSROOM ACTIVITY
REPORT**

“We are in charge of how we feel and today we choose happiness.”

The purpose of education is to prepare students- to lead a joyful and purposeful life. To translate this vision into action, the school system should have sound curriculum and educators catering and aiming to develop the children holistically. The moral responsibility of such educators is to produce happy individuals who find joy in what they do. Believing in these objectives, MBS International School, Dwarka organised “Happy Classrooms” for the students of grade VI-X & XII on April 1, 2021. The teachers joyfully welcomed the students in the new academic session 2021-2022. The start of a new session is always a time filled with excitement and enthusiasm. The day kicked off with positivity and cheer as teachers started the session with “Happy Classrooms” in their respective classes. The session began with a few minutes of mindfulness practice, followed by activities, fun indoor games, reflective discussions about spring break experiences, storytelling etc. Seeing the children joyfully engulfed in all the activities, was a feeling of sheer bliss.

Let us all look forward for a bright year ahead and make it productive and inspiring for our children.
