

MBS INTERNATIONAL SCHOOL, DWARKA
Lingua Franca English
SESSION 2021-22
Grade III

Name of the Activity: English Lingua Franca Club Activity- I Speak, I Present

Objectives:

- To realize their ethical obligation towards the environment.
- To educate the students about harmful effects of using plastic.
- To know how to overcome nervousness and anxiety associated with public speaking and giving class presentations.

"Nature is for everyone's need but not for anyone's greed, So discard plastics from environment."

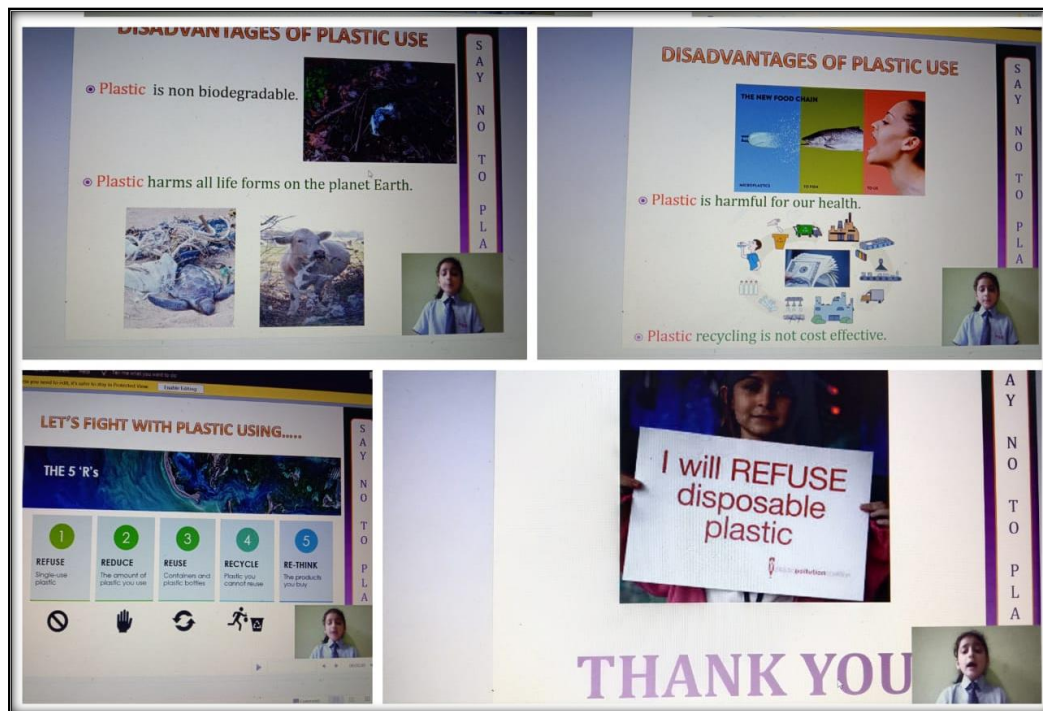

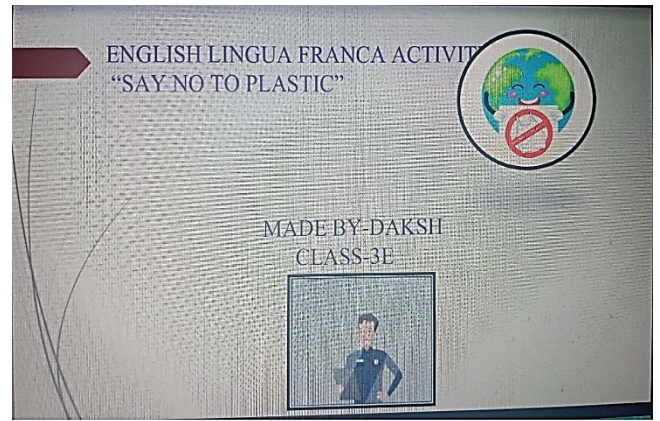

They are bad, destructive, non-biodegradable and well, just not cool! Plastic bags are to the environment what frenemy is to you. It may look quite useful, but with time it only harms us.

With this thought in mind the English Lingua Franca Club conducted an activity on the topic 'I Speak, I Present' on June 28, 2021. Speaking and Presenting are the important factors that give students creative room to express what they feel. We, at the MBS International School, believe that not only adults but even children should be taught of the ways to prevent usage of plastic bags so that they can get habituated to the practice and responsibly contribute to creating a better environment.

Students were asked to prepare a thoughtful power point presentation on the given topic "Say no to Plastic" where they showed different disadvantages of using plastic and they also included suggestions to use it wisely in making roads, wires etc. Students presented their presentations beautifully.

They depicted their creativity through beautiful presentations including thoughtful slogans and created awareness on "Say no to Plastic". Children participated earnestly and their efforts and initiative were appreciated by one and all.

S.NO	NAME	CLASS	POSITION
1	Tanaya Rana	III E	I
2	Lehana Singh	III C	II
3	Saanvi Chandel	III E	II
4	Aditri Ambastha	III F	III
5	Kushagra Singh	III A	III

SO OUR SCHOOL DECIDED
TO SAY "NO" TO
PLASTIC

LET'S FIGHT WITH PLASTIC USING.....

THE 5 'R's

1 REFUSE Single-use plastic	2 REDUCE The amount of plastic you use	3 REUSE Containers and plastic bottles	4 RECYCLE Plastic you cannot reuse	5 RE-THINK The products you buy

SAY NO TO PLASTIC

Plastic is non biodegradable.

Plastic harms all life forms on the planet Earth.

SAY NO TO PLASTIC

IINTRODUCTION

Plastic pollution is the accumulation of plastic objects and particles in the Earth's environment that adversely affects wildlife, wildlife habitat, and humans.

SAY "NO" TO PLASTIC

NAME – TANAYA RANA
