

Water is the most precious gift of nature. It is an essential component of life and is vital for sustenance. Without water nothing can survive, thus water conservation has become a need of the hour. So, we should all stand together to conserve water to save life.

As we all know children always learn by doing, so to teach them the importance of water Eco – club of MBS International School has conducted an activity “Speak your mind- JAL KI BOOND” for the students of class IX on August 20, 2020 to create awareness about saving water in the advent of water shortage problem

The students participated actively and send some beautiful posters to explain their views on water harvesting.

The activity was thoroughly enlightening and productive. Students of class IX enthusiastically and actively participated in the activity conducted and showed their creativeness and radical thinking

Make Every Drop of Water Count... No Water No Life

Wash full loads of Clothes

Take Shorter Showers

Turn Off Taps while brushing

SAVE WATER

Fix all Leaky Taps

Water your plants with Watering Can

Use a Bucket for Car wash
