

**MBS INTERNATIONAL SCHOOL, DWARKA
EUREKA CLUB
ACTIVITY REPORT**

Date/Day:-29.4.19(Monday)

Class : IX(A & B)

Name of the Activity: Science Symposium
Topic: Environmental Pollution & De-pollution techniques

Objectives:

- To encourage students to develop self-confidence and awareness.
- Acquire an ability to think scientifically, independently and to make rational decision.

Eureka Club organized a **Science Symposium** for the students of class IX on April 29, 2019 in the school auditorium. The topic for the symposium was '*Environmental Pollution and De-pollution techniques.*' The students made the most of this opportunity by discussing the topic in detail.

Science teacher, Ms. Monika Maurya (PGT Chemistry) supervised the symposium. The participating students were divided into 4 groups(2 groups each from class IX-A and IX-B) comprising 3 members . The event began with an open discussion round where the participants voiced their opinions through mesmerizing and captivating PPT presentations. The groups were given 2-3 minutes to complete their presentation. Each presentation consisted of 12 to 15 slides.

The students came up with innovative ideas to deal with air, sound, water, and soil pollution. Some students proposed to initiate awareness campaigns to make people

aware about the negative effects of pollution. This was followed by an interactive discussion session where every group was bombarded with questions from other groups as well as from audience after the presentations. It was tactfully tackled by the students. The audience and judges were highly impressed by the speakers.

Overall, it was a great learning experience for everyone.

Students of class IX enthusiastically and actively participated in the activity conducted and successfully showcased their scientific temperament and radical thinking.
