

## E-Newspaper Designing Activity

*“The window of the world can be covered by a newspaper.”*

A newspaper offers an array of teaching opportunities that fall in a variety of viable career fields. From journalism & graphic designing to creative writing, creating a classroom newspaper can help our students learn valuable skills that can be useful in many different career choices, later in life. Taking care of this, MBS International School organised “Creating an E-Newspaper” Activity on October 19, 2020 for the students of grade IX and on October 22, 2020 for the students of class VIII. The activity was executed by the Entity Club. Students of each section worked together as a team and created newspapers enriched with creativity, knowledge and information. The students penned articles on various topics, made beautiful paintings, posters & illustrations, composed poems, designed ads and even made fun puzzles and riddles. The activity not only made learning fun, but also bridged the gap between the classroom and the “real” world.

## STUDENT DIVISION TIMES

**“FEED THE MIND A POSITIVE SEED IN THE MORNING AND HARVEST THE REWARD ALL DAY”**

**Protecting Our Vision**

**RIYA YADAV IX<sup>th</sup> B**

During this pandemic, the world has changed. All the students are now using their phones or any other device to attend their classes. Sitting in front of screens for more than three to four hours will affect our eyesight for sure. Here are some ways to prevent your eyesight from getting damaged:-

1. Give your eyes a rest. If you spend a lot of time using a computer, you can forget to blink your eyes and your eyes get tired. To reduce eye strain, try the 20-20-20 rule. Every 20 minutes, look away about 20 feet in front of you for 20 seconds.
2. Get Enough Sleep. Getting enough sleep is one of the most important factors to maintain healthy eyesight. Giving your eyes rest for at least 8 hours is essential.

Your eyes are an important part of your health. Most people rely on their eyes to see and make sense of the world around them, but some eye diseases can lead to vision loss, so it is important to identify and treat eye diseases as early as possible. You should get your eyes checked as often as your health care provider recommends it, or if you have any new vision problems. And just as it is important to keep your body healthy, you also need to keep your eyes healthy.

**IMPACT OF ONLINE EDUCATION**

**DRESHITI GULYANI IX<sup>th</sup> B**

Education is an important part of people's lives; it will either make them or break them in the future depending on the careers they choose. Education is greatly diverse today in comparison to the 1950s because of advancements in teaching and other great inventions that provide newer techniques of teaching. One major issue that has been raised is distant learning courses and online education. Distant learning could be one format from 1925 videos, DVDs, or internet courses online. Online education has been used since 1993 and is a new way of teaching students of all ages. Since the COVID-19 pandemic has disrupted the normal lifestyle of people across the globe, the virtual world has come to the rescue.

Although many institutions schools have also shifted their base to virtual platforms to conduct classes online. Consequently, catering to the needs of all stages of education from pre-primary to university level, online education has emerged as an alternative to ordinary face-to-face classes. Online learning has covered a lot of ground in recent times and the interest is more user-friendly and on top of that, a student gets a classroom experience by sitting in the corners of their rooms. There are facilities for communicating with your educators and the students of the same course. The biggest benefit would be its flexible timetable. Students can see a resolution to their problems not only during the mandatory hours of the class but also during the time while they are studying themselves via email or through an online chat system. The exams are mostly conducted online under due to its efficient mechanism and due to the fact, which are designed in the online format, allowing makes students accustomed to an almost exact exam atmosphere and that increases

### Art-Integration And Sikkim Project

By the students of class 9<sup>th</sup> B

**PARTH SARTHI SOOD IX<sup>th</sup> B**

An integration was various art forms for experience-based learning of various concepts in different subjects. As per the CBSE initiative, this will also help in "nurturing the Indian ethos through integration of Indian art and culture in the teaching and learning process at every level." This art-integrated approach will strengthen the "bridge" between education and culture," it added. The motive behind introducing this art-integrated learning is to make the teaching and learning process more joyful, implement learning outcomes and "enable all stakeholders to foster Competency Based Education (CBE)." The objective of Art - Integration is not to promote art and skills of art but to use art as a tool to teach other subjects.

Under the Ek Bharat Shiksha Bharat Programme, students went to make a project on the scenic and cultural beauty of Sikkim, so that the students to know the state of India, and how they are rich and diverse in their own manner.

### POEM

#### Story of Covid-19

**BAYLEEN DHODY 9<sup>th</sup> B**

It will be ended with positive thoughts,  
Corona started from china,  
Now the world is sick,  
People are having cough and cold,  
Masks to wear and cover to nose,  
Not to be touch, need to be covered,  
Everyone is getting rid of it.

All need prevention to fight the pandemic,  
People need strong immunity to fight against it,  
Washing hands are important too,  
Fight the virus, that we hope,  
Crowded places are prohibited to go,  
Call up the emergency numbers to be cured,  
People need to be aware.

### JUST A MATTER OF TIME ...

**GARGI GRACY 9<sup>th</sup> B**

It's just a matter of time  
To get everything in line  
To bring the normal again  
After which we won't need to abstain

COVID19 is now rife  
Which had ruined since months our school's life  
Restricted us to go outside  
Made us to sit inside.

This virus has made people to suffer a lot  
And the Economy is dropped  
Sacrificing their lives, losing their jobs  
People are suffering a lot.

But this won't happen for long  
As we will soon be very strong  
By developing vaccines and taking precautions  
We will overcome this loss.  
It's just a matter of time  
To get everything in line.
