

**MBS INTERNATIONAL SCHOOL
SECTOR -11, DWARKA
EUREKA CLUB
ACTIVITY REPORT**

Date/Day:-14.05.2019(Tuesday)

Class : I-III

Name of the Activity: Herbal Garden Activity

Objectives:

- To improve the aesthetic appearance of the ground making the campus more inviting to students, parents, faculty, and the surrounding community.
- To create environmental awareness among the students.

Keeping the environment safe is our moral responsibility. Keeping this in view, a 'Tree Plantation Activity' was organised in the school campus by Eureka Club for the students of class I, II and III on May 14, 2019.

The teachers explained them about the importance of tree plantation. Even our help staff(Gardener) also taught the students how to plant a sapling and then they watered the plants. We planted various types of plants. The gardener explained them about the plants and their uses.

The activity was a huge success, empowering the students with substantial knowledge of environment and plants and simultaneously enhancing their social skills. Through this activity the students learnt the importance of plants and how to take proper care of the plants.

Students getting a hand on planting sapling
