Abheek's 8 Pt. Formula For Pollution

Abheek Khamrui, Standard: VII-A, J.M. INTERNATIONAL SCHOOL, Delhi.

Publsh Date: Nov 7 2016 4:20PM | Updated Date: Nov 10 2016 5:27PM

Comments

The air quality has deteriorated threateningly in Delhi NCR. Air pollution has reached an alarming level causing immediate damage as well as posing long term implications to the health of the residents of Delhi NCR. Meanwhile, it has also become a high degree health hazard especially for children & olds. The cause of air pollution in Delhi NCR is deep-rooted and any cosmetic measure would not stop recurrence of the menace. The disease cannot be cured using band-aid. It requires surgery. Here is what I think needs to be done:
