Grade- Kindergarten

Easter Day

Easter is the time to rejoice and be thankful for the gifts of life, love and joy. Easter day is a festival celebrated all across the globe. It commemorates the Resurrection of Jesus. Easter egg symbolizes new life emerging from the egg shell.

To mark the importance of this festival our little Xaverians of Kindergarten decorated Easter egg cutouts with patterns and decorative materials. These cut-outs were decorated in Easter basket. Each child participated and showcased their innovative and creative ideas.

Bonding over Breakfast

'Great teachers focus not on compliance but on connections and relationships'.

To create the strongest bond with our little ones, 'Bonding over Breakfast' was conducted wherein our children learnt about table manners, healthy food. They shared their own stories and thoughts too.

It was a memorable experience for the children and their teachers to cherish.

International Dance Day

Dance is an art form which helps in expressing the emotion of life and relaxing the mind, body and soul. International dance day is celebrated on 29th April every year throughout the world to pay tribute to this distinctive form of performing arts.

This year St. Xavier's High School celebrated this day with great zeal and fervor. Little Xaverians of Kindergarten shared their videos of dance and left us spellbound. It was a great platform for them to showcase their talent.

Earth Day

Earth Day is celebrated on 22nd April every year to commemorate our benevolent Mother Earth. On the occasion of 'Earth Day', an array of creative activities were organized with a view to spread awareness about protecting our planet.

Slogan speaking activity was organized for Kindergarten kids. Our inquisitive tiny tots expressed their inspiring thoughts in the form of slogans and the beautiful props made by them enhanced their performance.

Summer Tide

Summer vacation is the perfect time to explore and learn new things.

During this summer, Summer Tide was organised for our Xaverians where they were engaged in fun filled activities like story session, know your GK, painting, craft, cooking without fire, innovative games, fun with letters and numbers. Our little stars got an opportunity to learn a few magic tricks. They also learnt some science experiments and proved themselves to be the budding scientists of the future.

It was a memorable time for them as they created memories with innovative and fun learning.

International Yoga Day

'Yoga adds years to your life and life to your years.'

International Yoga Day is celebrated on 21st June with great enthusiasm. Xaverians stepped ahead and enjoyed this special day with Dr. Yogi Amrit

Raj. He enlightened everyone with his inspiring words.

It was heartening to see the exuberance of our little stars.

Mother's Day

"A mother is she who can take the place of all, but whose place no one else can take."

Mother's day is a special day for all children and mothers. It celebrates the bond of love and affection that is everlasting. Mothers are the emotional backbone of the family with the magic touch to heal all wounds and make all things beautiful.

To honour this day our Tiny Tots were encouraged to make videos to express their love with overwhelming messages for their mothers. They even made bouquets of origami flowers and gifted it to them.

Enrichment Activities

Subject Enrichment signifies that every subject has its own intrinsic pedagogy that helps students acquire the relevant knowledge. It promotes critical thinking and problem solving skills, improves student's ability to concentrate, and make learning more meaningful, valuable, and rewarding. Enrichment activities are fun, which help students to become more engaged in their learning and retain information.

Keeping in view all these factors contributing to learning of the children various subject enrichment activities were planned. Our Kindergarten explorers engaged themselves in numerous activities like suji lekhan for learning vyanjans, flash cards and crafty activities for themes in EVS, Kidney beans activity for quantification, etc. All the activities help the children to grasp the topic well and that too in a playful way.

Show n Tell- Summer Season

Students of Kindergarten participated enthusiastically in the Show n Tell activity on the theme- Summer Season. They shared their knowledge and also discussed about different ways to keep ourselves cool.

Beautiful props helped them to explain their content in an enriching manner. This activity boosted their confidence, learning and oratory skills.

Virtual Assembly

Class Assemblies play an important role in creating a positive attitude, confidence, learning and value based education. Thus to enhance these skills Virtual Assemblies are conducted regularly.

“Save life around you by saving water around you.” To highlight the importance of water, students of KG F presented their Virtual Class Assembly on the topic ‘Every drop counts.’ Children of KG-F spoke about the importance of water and ways to conserve it.

When the world is struggling to survive a pandemic, there is probably no better time to remember the doctors whose story is a mix of hardwork and talent. Students of KG- E conducted their Virtual Class Assembly on the topic 'Our frontline Warriors'- Doctors. It was a beautiful tribute to all our doctors.

Both the assemblies delivered a beautiful and inspiring message. It was an overwhelming experience to see our little stars speaking so confidently.
