# KUKDUKOO ART FEST 2022

## Kukdukoo Art Fest 2022 – A New Perspective of Art!

With the flamboyant commencement of Kukdukoo Art Fest at Airia Mall Gurgaon, children, educators, art experts, performers, illustrators and storytellers collaborated to celebrate India's biggest art festival for children on the 1st & 2nd of October 2022. As an official partner school, St. Xavier's High School endeavoured to provide budding artists with a platform to showcase their artistic prowess through unique art forms and styles. A myriad of ecstatic and awe-inspiring competitions and exhibitions were conducted by renowned artists of national repute to keep the excitement alive!

Xaverians in their artistic pursuit displayed their creativity by way of different art forms. Be it the exquisite Art Installation, the overpowering performance in the street play, imaginative creations of clay, resplendent and artfully decorated diyas, intriguing art quizzes or aesthetic butterfly designing, our young artists made use of these art forms to express their feelings, thoughts, ideas and convey a meaningful message for social issues. The art fest provided a golden opportunity to our young students to explore and learn new horizons of art under the proficient guidance of experienced mentors.

## Why Me?

From Womb to the Tomb  
Pushed From Womb to the Tomb  
Stream of life begins with a dot  
A dot within a woman's womb  
Who nurtures it day and night  
Through her veins to make it shine  
bright  
She is the epicentre of all existence  
The genesis of the whole universe  
Let her live and bloom.....live and  
bloom,  
Cuddle and protect this powerful  
boon  
Oh, my friends and fellowmen  
Doesn't your heart melt in  
slaughtering the ●!  
Why not let this DOT become a  
towering ball of fire,  
And give her the wings to achieve  
what she aspires!  
Take an Oath before it's too late!  
**STOP FEMALE FOETICIDE!**

**Team Xavier's congratulates the students and the Art Team on  
their incredible success in winning the Art Installation  
Competition at Kukdukoo Art Fest 2022!!  
Kudos to the untiring efforts, diligence and determination.  
Well-deserved accomplishment!!**

# SCIENCE AND ILLUSION MUSEUM EXCURSION

Xaverians of Grades VI to VIII went on an exploration spree as part of the Science Excursion on 22nd December 2022. Our curious scholars were awestruck after entering the fascinating world of illusions which was filled with visual, sensory and mind-boggling experiences for the explorers. Be it the Building Illusion, Swap Noses, Colour Room, Rotated Room, Infinity Well, Hollow Face Illusion, Kaleidoscope, Clone Table, Holograms or the Beuchet Chair filled the young minds with wonder and amazement. Each exhibit had some surprising element to ignite inquisitiveness among the students. Walking through the Vortex Tunnel made the students scream with excitement as they stepped forward through a rotating cylinder on a flat and stable surface. The feeling that the room is going topsy-turvy is just an illusion smartly created to trick the excursionists! The students carefully studied the scientific reasoning displayed with each exhibit to understand the concept involved. The next halt in their journey of practical learning was at the National Science Centre, New Delhi where they explored 'Water: The Elixir of Life Gallery' which elaborates well-researched information on water stress in India, adverse effects of acid rain on the ecosystem, water education and water content in the human body. The Science & Technology Heritage Gallery displayed the early mathematical foundations in India, the Harrapan technologies, mining and metallurgy, perfumery processes, metal artefacts, medicine, surgery, art & architecture of ancient India, glasswork, coin making, traditional crafts and textiles. The other attractions included the amazing energy ball, the wonderful human biology gallery, the fun science gallery, the information revolution gallery and Sardar Patel Gallery featuring his unwavering efforts in uniting India. With so much to retain, reflect and research our young scientists went home with a treasure of knowledge and fun-filled memories of an eventful outing.
