DEMOCRATIA 72ND REPUBLIC DAY CELEBRATION

There is no love above and beyond the love for the nation. India celebrated its 72nd Republic Day on 26th January 2021. On this day, the Indian Constitution was adopted in 1950 after attaining independence on 15th August 1947. In India, Republic Day is not less than a festival, when the whole country regardless of caste, creed, or religion beams with joy. On this day, the entire country is laced in tricolors to convey that India is a nation where unity in diversity is celebrated. Republic Day is the occasion to remember and thank all our freedom fighters, national heroes and soldiers who have fought for our happiness, safety, and brighter future. It is also a day to promise to work harder to make our country a more beautiful and harmonious nation. India is a nation of diverse cultures and customs which is bonded together with nationality and love for the country.

With the same spirit, we at St. Xavier's High School, celebrated our Republic Day for the very first time on the virtual platform live on the School Facebook page to give tribute to our soldiers and national heroes. Our Xaverians, infused with patriotism and love for India, participated in the event enthusiastically and showed up their patriotic sentiment for the nation.

"Freedom in the mind, strength in the words, pureness in our blood, pride in our souls, zeal in our hearts. Ask not what your country can do for you, ask what you can do for your country".

COLLOQUY

Saturday morning at St Xavier's High School welcomed an interesting, interactive and informative colloquy between the parents and the faculty members from Grade III – VIII. Since the transition to a digital platform is not easy for everyone, in order to have clarity, the faculty at St. Xavier's High School organized a colloquy for providing an insight into the upcoming assessments.

The colloquy, headed by our esteemed headmistress Ms. Geeta Kanwar, sought to provide assistance/solutions to all the queries and concerns of our parents. Information regarding the assessment timings and grading technique was cascaded from grade VIII to III.

Concerns based on technical glitches, power outage, submission of the test, or any other possible scenario that could prevent the smooth functioning of the assessment was patiently and effectively handled by our headmistress ma'am and the accompanying teachers. The parents were given an open platform where they could put across any queries that they had and each and every question was provided with a solution.

The parents participated enthusiastically in the colloquy and were genuinely happy that such an interactive platform was provided by the school. They appreciated the hard work of the teachers in planning a comprehensive revision for the upcoming assessment even during the pandemic.

It was a successful event that concluded with our dear parents being satisfied with all the resolutions provided and their doubts cleared about the upcoming assessments.

COFFEE WITH MOMS

When we look into our mother's eyes, we know that is the purest love we can find on this earth. There is no role in life that is more essential than that of motherhood." Moms are the world that those little ones revolve around. They are their nurturer, their home, and their comfort. From one mother to another, coffee with moms was conducted from Gr – III – VIII, it was an interactive session between the esteemed headmistress ma'am and the mothers to work collaboratively for the betterment of our children.

"The influence of a mother in the lives of her children is beyond calculation." She is the glue that holds everything together even when she feels she may fall apart".

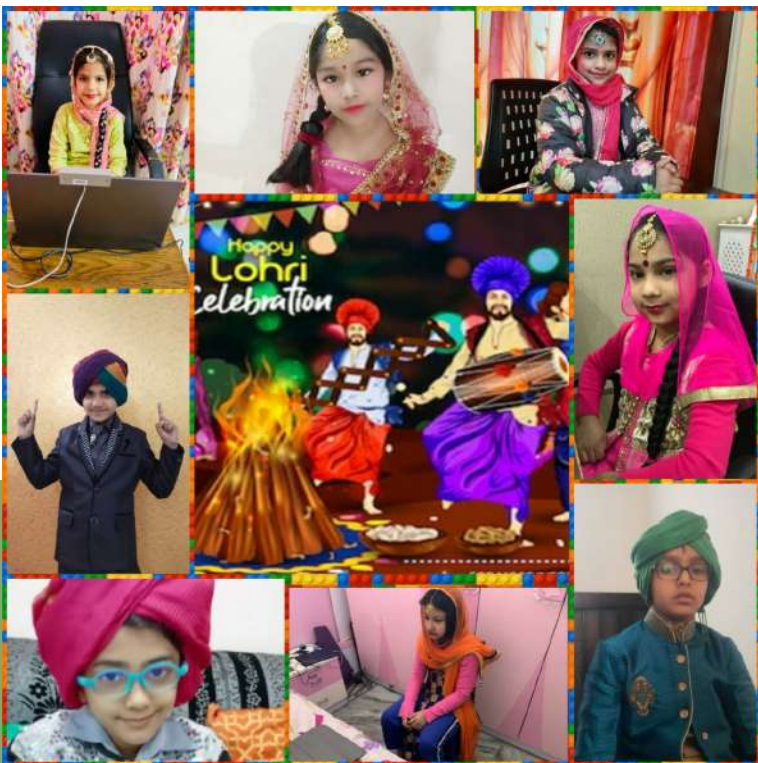

ASSEMBLY GRADE III E

Lohri -The Harvest festival of India is celebrated on 13th January

each year with the greatest fervour and pomp. It coincides with the festivals of Pongal , Makar sankrati and Uttarayan all of which communicates the same message of oneness and celebrate the spirit of brotherhood. Lohri marks the end of winter season and is traditionally believed to welcome the sun to the northern hemisphere. People in Punjab dressed up so beautifully in vibrant colors dancing on the themes of Gidda and Bhangra.

“Moongphali di Khushboo, gur
di mithas, make di roti ,te
sarso da saag ,dil ki Khushi ,te
aapno ka pyar , Mubarak
ho sabnu e lohri da tyohaar”.

ASSEMBLY GRADE III G

Morning assemblies are an intrinsic part of holistic development and a reiteration of the values and thoughts. They instill discipline, camaraderie and a sense of school spirit while developing the ideas of belonging to something larger than the self.

These assemblies contribute greatly to the community culture of our school and pass on positive values to our young and enthusiastic learners.

Assemblies are the most appropriate platform to create awareness among the learners. All important information regarding school curriculum, any concerns or just general social and aesthetic development of the learners are conducted through assemblies. Assemblies dispense the most appropriate forum to teach our learners audience behaviour and conduct.

In assemblies, many sensitive topics are touched upon which are usually omitted in our day to day learning. Enlightenment of these topics is paramount in the comprehensive evolution of our learners. Assemblies also aids in showcasing the talent of our budding learners. Their achievement and awards are also announced and appreciated during these assemblies which instil our learner to achieve more.

“Imagination is the beginning of creation”.

ASSEMBLY GRADE III I

Perhaps most importantly, when we save paper, we reduce the need to cut down trees to make new paper. Producing one ton of paper requires 2-3 times its weight in trees. Making paper from recycled content rather than virgin fiber creates 74 percent less air pollution and 35 percent less water pollution. This idea was beautifully conjured and presented in form of a class assembly where the children outdid themselves in creating awareness on the importance of planting trees and saving paper.

“Save nature with the use of paper - “Use paper with care so that our trees don’t become rare”.

EVS INTGRATED PROJECT

Landforms are the physical features on the Earth's surface. Mountains, Plateaus, and Plains are some major landforms of the Earth. Natural processes such as weathering, water, elevation, sinking, and erosion of the soil are constantly shaping the Earth's surface. For an in-depth understanding and to analyse how landforms are conjured over the years and their evolution process, the young learners were encouraged to design and architect the 3D models of various landforms found on earth. An extremely interesting activity fusing creativity and intelligence, it was thoroughly enjoyed by all.

“The earth is what we all have in common”.

EVS INTEGRATED PROJECT

"The earth is what we
all have in common".

GAMES ON SCRATCH

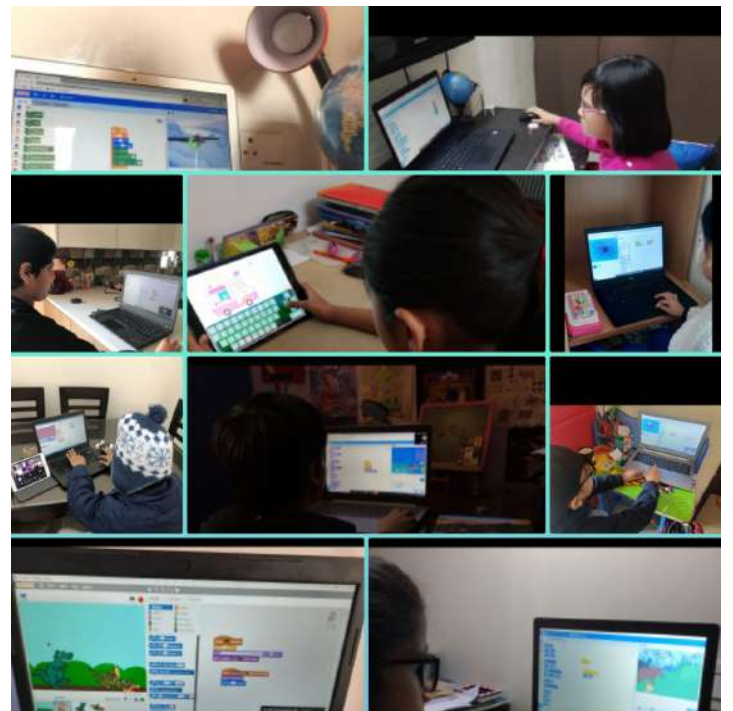

Access to computers has increased significantly over recent decades, and the number of children playing/creating games on computers has increased too. With regards to the positive effects, playing computer games can develop children's cognitive skills. Many popular games require abstract and high-level thinking skills to be created. Children need to follow instructions, solve complex problems and use logic in many of the games that are currently popular. Such experience will be beneficial to a child's progression into an adult. To imbibe greater problem-solving and analytical skills in our young learners, the children were encouraged to attend scratch coding classes and utilise this knowledge abundantly to create games through coding.

“Creating games in scratch fosters the mindset that allows the creativity to grow”

GAMES ON SCRATCH

Result: The students loved it!

MATH ACTIVITIES

Life is like mathematics. We should add more and more friends in our lives, try to subtract as much sorrow as we can. We must multiply our memories and happiness with abundance. Divide our duties to supplement efficiency. Eliminate ego from our lives and last but not least – have a perfect solution to all our problems! To inculcate the love of mathematics within our young learners, a math-based activity was organised in the form of pictographs where children were encouraged to depict pictorial data through pictures or symbols.

“Life is a math equation, In order to gain the most, you have to know how to convert negatives to positives”

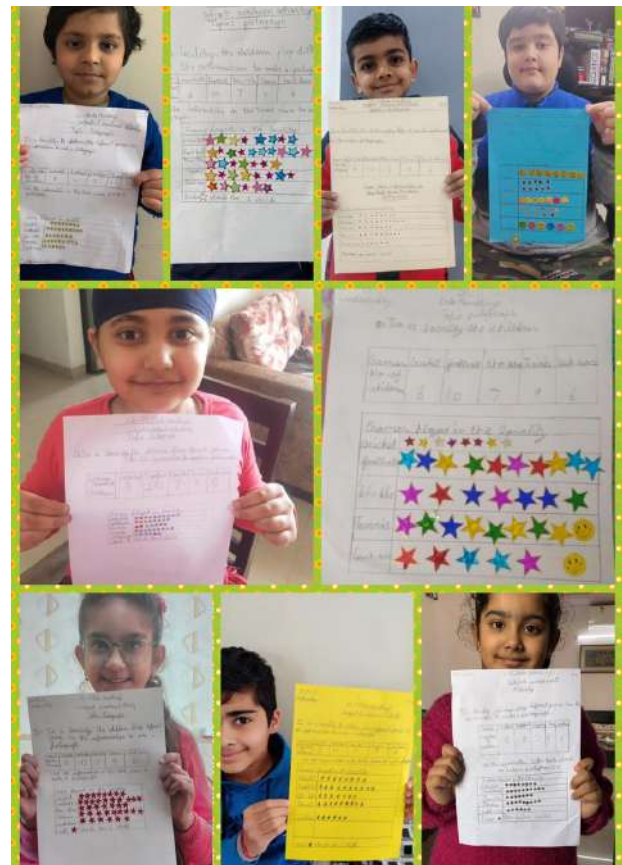

MATH ACTIVITIES

MATHEMATICS EXPRESSES ITSELF EVERYWHERE IN ALMOST EVERY FACET OF LIFE- IN NATURE ALL AROUND US AND IN THE TECHNOLOGY IN OUR HANDS. MATHEMATICS DEVELOPS COMPUTATIONAL SKILLS, CRITICAL THINKING AND PROBLEM SOLVING SKILLS. ST. XAVIER'S HIGH SCHOOL RECOGNIZES THIS AND STRIVES TO ENSURE THAT THE LEARNER OBTAINS THIS KNOWLEDGE.

MATH ACTIVITIES GAVE A FANTASTIC OPPORTUNITY FOR CHILDREN TO ENGAGE IN CREATIVE ACTIVITIES, WHICH THEY MAY NOT NORMALLY GET A CHANCE TO EXPERIENCE IN A NORMAL LESSON.

“MATHEMATICS is not about numbers, equations, computations, or algorithms: it is about UNDERSTANDING”

ART CORNER

Art is your emotions flowing in a river of imagination. Art is everywhere in the entire world. It is one's creativity and imagination. Art is the most things you use and see always without paying attention to it. Art is universal and is everywhere. Art is more important than one can consider. Without art, one cannot see anything beautiful because art adds attraction and beauty to anything. To imbibe the love of art into the soul of our young learners, the school encouraged the young artists to make soulful paintings and display them in school.

TOURNEY OF THE CONTEMPORARIES- TECH WIZ - SCIENCE QUIZ

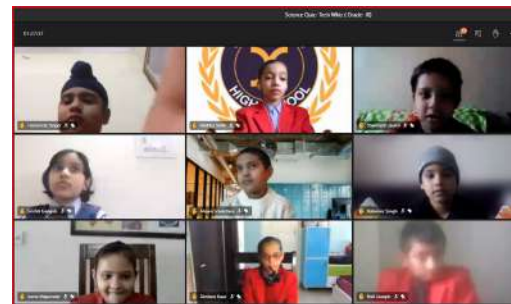

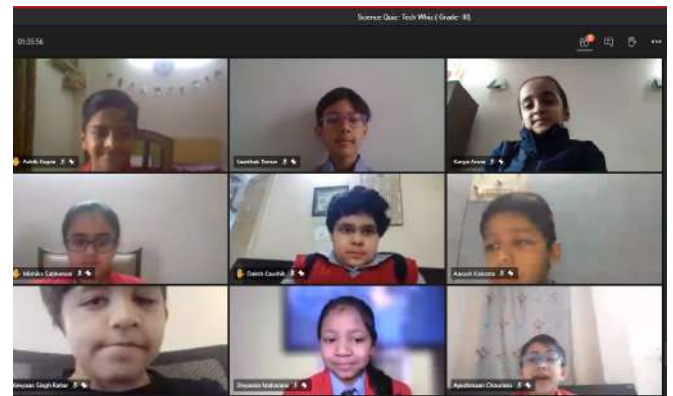

Science quiz aims to inculcate in the minds of young students a spirit of scientific inquiry, analytical thinking and provides a platform to budding scientists for exchanging thoughts. To analyse the true gain of knowledge and information that is soaked up by our young budding minds, we must organise science quizzes. St Xavier's high school regularly organises and participates enthusiastically in all quiz endeavours which are conjured to enhance and supplement education i.e. knowledge-based and experiential.

you're a TEACHER.

I would like to thank the entire school faculty for putting in so much effort during these hard pandemic times. The school has been off but learning hasn't stop, all thanks goes to the teachers. I'm extremely grateful to Deepa MA'AM and thank you so much for being so thoughtful and making the things easy for the parents

Thank you again to Deepa MA'AM for planning everything in such a thoughtful, mature and wise manner . And I wanted to acknowledge how beautifully the school has managed to help all the parents in this arduous time.

Warm regard swati Garg

All teachers of St. Xavier's have handled the classes in this pandemic well but I would like to specially thank our class teacher Deepa Mam. You have shown exceptional leadership, patience and persistence. In the unknown and unpredictable times also, you have stood by the students like a rock and made the whole thing look so easy. Plus I would like to thank the school too. In our society, St. Xavier's was one of the first schools to smoothly start the classes and continued successfully. Big round of applause to the whole team

As Vansh bids farewell to class 3, I would like to thank you for the amazing experience we had in class 3. We started 2020 with a lot of skepticism, on online classes.

Now after one year, I would like to thank you so much for such a strong presence in Vansh's curriculum. Only a very mature and experienced teacher would be able to seamlessly engage students in such a situation. Vansh was in fact more motivated than ever to perform this year.

Thank you so very much, and I hope we get to meet you face to face soon as this pandemic is over !
