**WORLD**  
**ENVIRONMENT DAY**  
*5th June 2020*

## **Significance of World Environment Day**

The main idea behind marking June 5 as World Environment Day is to raise awareness about the environmental issues like global warming, marine pollution, human over-population, protection of wildlife, and sustainable consumption.

## **Theme of World Environment Day**

The theme of World Environment 2020 is 'celebrating biodiversity'- a concern that is both urgent and existential. The fact is that the current environmental crisis is a warning that we must heed collectively. We must now fundamentally rethink our relationship with the living world, with natural ecosystems and biodiversity.

# Activities to Celebrate the World Environment Day

On the occasion of the World Environment Day, few online competitions have been organised to express gratitude and to create awareness about the importance of preserving Mother Nature.

- **Grade IV:** 'How the natural environment around us has changed-pre COVID 19 and post COVID 19 lockdown'. Draw two pictures depicting the given topic.
- **Grade V:** Create a slogan in about 10-15 words on 'The Environment Today'.
- **Grade VI:** Write a short poem (8-10 lines) on, 'It's time to appreciate and value the natural environment around us'.
- **Grade VII:** How have you learnt to appreciate the natural environment around you during the lockdown? Illustrate to express your thoughts.
- **Grade VIII:** 'A Second Chance to Our Planet'. Based on this title, depict through a story/your own video how the face of the world has changed during the pandemic.
- **Grade IX:** Write an essay in not more than 200 words on, 'How nature is reclaiming the earth in this time of pandemic'.

**\*Note: Submit the activities by 8<sup>th</sup> June 2020 Monday, on your class WhatsApp group. All drawing and writing activities to be done on an A-4 size sheet. Videos and photos should be e-mailed to your class teacher.**

**The best entries class-wise will be certified.**

**Stay Safe. Stay Healthy. Preserve, protect and restore biodiversity.**
