

# WORLD ENVIRONMENT DAY-2024

**DATE:** 5 JUNE 2024

**VENUE:** ITL Public School, Sec 9, Dwarka

**CONDUCTED BY:** Department of Science

**STUDENTS INVOLVED:** Students from Classes I-XII of ITL Public School

**“Ecosystem restoration is crucial to the climate action we need.”**

To raise awareness and promote action for the protection of our environment, this year’s World Environment Day campaign focuses on land restoration, desertification and drought resilience under the slogan “Our land, Our future.”

The Kingdom of Saudi Arabia will host the global celebrations.

The emphasis is to restore ecosystems which involves reviving the natural processes and relationships that sustain life, mitigate climate change and improve human well-being. We cannot turn back time, but we can sensitise our students to grow trees, revive water sources, and bring back soils. We are the generation that can make peace with land.

#worldenvironmentday

#OurLandOurFuture

#WeareGenerationRestoration

**Class-I-V** The students spread awareness by speaking about various means to conserve the environment like plantation drive, habitat protection and ecosystem restoration. They also created posters spreading awareness about protecting our mother nature.

**Class VI-VIII-** ITL Public School in collaboration with TERI(The Energy and Resource Institute) is organising a poster making competition on the occasion of World Environment day for the students of classes VI to VIII.

Topics for poster making are:

- Land restoration
- Desertification
- Drought resilience

Two students from our school

Tanisha Das Rehman and Arnav Kukreti of class 6D won 2nd and 3rd position in the competition.

The winning students and their parents were invited to join a formal felicitation ceremony on June 5, 2024 at the habitat centre, New Delhi.

**Class IX and X-** A Scavenger hunt to save environment

In a unique twist to celebrate World Environment Day, students of IX and X were engaged in a scavenger hunt fuelled by brain-teasing riddles. Their mission was to decode clues leading them to littered spots around the school, fostering a hands-on lesson in environmental stewardship. Clad in protective gear and armed with eco-friendly bags, they embarked on a clean-up crusade, transforming their school into a cleaner, greener haven. As they competed to gather the most refuse, they also embraced the vital lesson of minimizing plastic pollution.

**Class XI-XII-** Video making to create awareness regarding environment conservation and tree plantation.
