**SESSION:2024-25**  
**'WILD WISDOM GLOBAL CHALLENGE' 2024**

**"Let's be the voice for the voiceless"**

Wildlife is an important part of our ecosystem. If we don't conserve wildlife, the entire ecosystem will collapse. For a balanced ecosystem, the conservation of wildlife is a must. One of the biggest threats to wildlife are crimes against nature which include poaching, killing protected species, illegal trade and trafficking, and illegal capture and possession of wild species. Our region is often the endpoint as well as the area of transit for wildlife trade. Local and foreign species are endangered due to human activities. WWF-India has started an initiative 'Wild Wisdom Global Challenge 2024'. **The theme for this year is on Reptiles "The Ultimate Scaly Survivalists"**.

While keeping this alert in mind *Shiksha Bharati Global School* has successfully organized classroom challenge on 3rd August 2024, where 100 students had participated from class: 6th to 9<sup>th</sup>. Top 30 students were shortlisted for the further challenges.
