

## JMIS EXPERT STUDY SESSION: CHEMISTRY

Date : 08/09/2014  
Venue : J M International School  
Resource Person : D. A K Vashistha  
Attended by : Students of Class XII & Chemistry Teacher

JMIS organized a chemistry workshop for class XII students. Dr A K Vashistha, our subject expert took a detailed and interactive session on p- block elements.

All the elements of periodic table were discussed in detail with their electronic configuration, physical properties and chemical properties. Important questions from boards and their expected answers were emphasized and explained.

The use of pneumatic code to learn formulae and periodic table made the session interesting and effective, all the students participated enthusiastically in the workshop with a lot of interest. Moreover connect of the topic with the real life applications and daily life experiences made the concept clear. Overall it was an effective and useful session.
