

Workshop By FIIT-JEE

Venue: JMIS

Mr. Chaterjee from FIIT JEE conducted a seminar on life skills. The session started with a brain storming but an easy question of "why do we study?" Various reasons came from students. The talk aimed children to focus on their studies because this is the right time. Students heard the facts and the links which actually deal with present and future. The session ended with a Maths tricks which was enjoyed by the students and left them in happy spirit. In all it was a nice informative, enjoyable session.
