Chemistry Workshop On Projects And Experimental Errors

Venue: JMIS

JMIS organized a workshop by Dr A. K. Vashishth, subject expert of chemistry to encourage and guide students of class XI and XII for accuracy and measurement in practical. It also aimed at guiding the students and the teachers for selecting the various projects that could be taken up for class XII boards. It included functioning, various chemicals reactions involved in the forensic laboratory, Pathological laboratories, working in petroleum refineries, and the accidental hazards caused in the functioning of coal and petroleum industries.
