

POTTERY WORKSHOP

Times NIE organized a pottery workshop for students of classes 6th to 8th on 23rd November, 2015. It was facilitated by a veteran, who is an expert at making beautiful crafts with clay with dexterity.

The students thoroughly enjoyed learning the

new art as they tried their hands at creating something innovative from the potter's wheel.

The workshop aimed at revisiting the art form which has taken a backseat in the fast paced world of technology. The students also learnt that pottery can be taken up as a hobby to relax and unwind while doing something constructive.
