

VEDIC MATHS WORKSHOP

DATE – 21/04/2016

VENUE – JM INTERNATIONAL SCHOOL

ATTENDED BY – STUDENTS OF GRADE IV AND V

RESOURCE PERSON – MR. MOHAMMED FAISAL

The Vedic Maths workshop conducted within the school premises was a dynamic, awe-inspiring and effective session with interactive discussions, computer presentations, and numerous numerical and arithmetical examples. The Resource Person presented a wide range of techniques to simplify numerical calculations (to the point

where many can be performed mentally without writing down any working) and mental exercises with a focus on developing mathematical skills of students.

The students found the session enjoyable and had a very enriching experience. The resource person also discussed the many advantages of Vedic Maths one of which was that students can invent their own methods. This leads to more creative, interested and intelligent pupils.
