MERRY CHRISTMAS

OCTOBER FEST' 2020

Yes, we missed the School Annual Day, a huge programme held every year where we witness hundred percent participation of students dressed up in various costumes confidently performing on the stage right in the centre of St. Xavier's High School. But we Xaverians don't give a chance to our children to miss any opportunity to have fun and learn together.

Titled, 'The October Fest' - The virtual event spread over a week had plethora of activities from dance to fashion show, clay modelling to Fireless cooking and solo singing to Stand Up comedy.

Organised for the children of Pre-Nursery to Grade II. October Fest witnessed the amalgamation of talent, joy and creativity. The Fest couldn't have been possible without the cooperation of our dear parents. We thank you parents for taking out time and making the dreams possible.

HINDI RHYME TIME

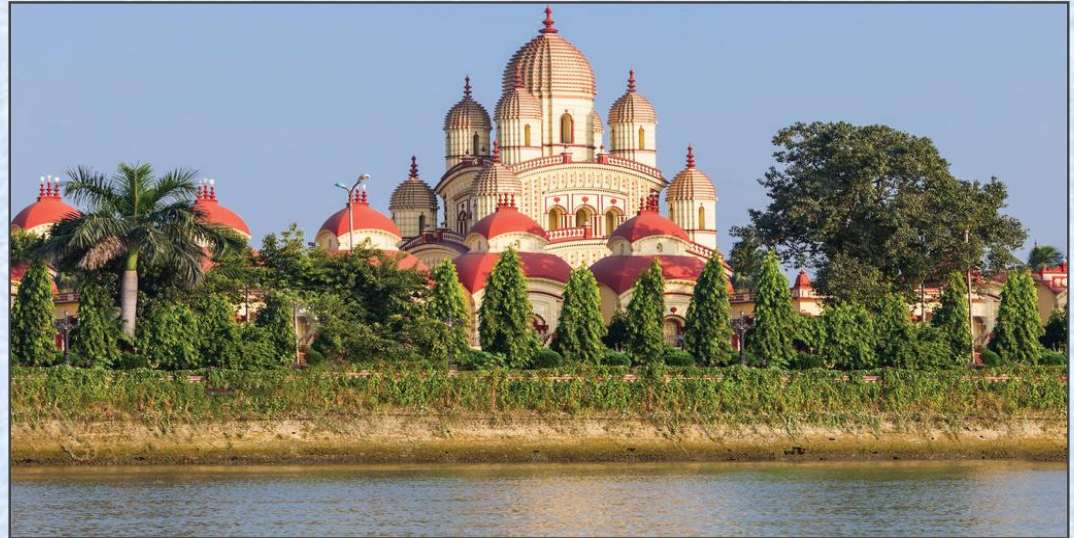

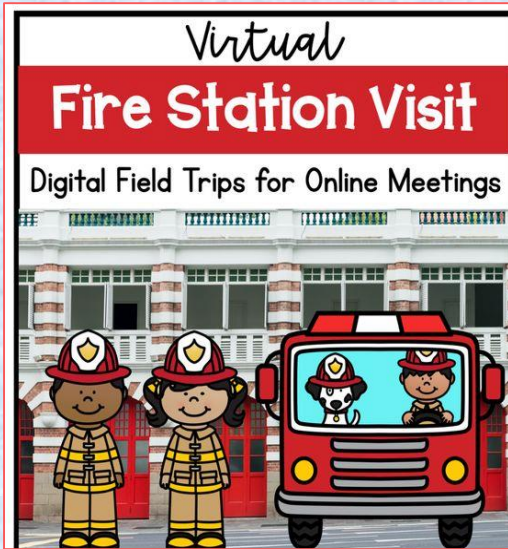

The Pre Nursery Hindi Rhyme Time was a complete success with lot of fun and drama. The little ones put their best foot forward and used the correct pronunciation and lovely expressions. Here is a glimpse, don't miss the attractive Props by our talented mummies.

We went to the temple on Diwali, the Fire Station when dealing with the monthly theme of 'Community Helpers' and the Church to celebrate Christmas like every year but this time these field trips were virtual.

The children of PN to Grade 2 enjoyed exploring these destinations which were relevant to their syllabus concepts. Designed by the teachers these virtual field trips bring real-life experience and add fun and adventure to the understanding of concepts taught.

Ms. Moumita ...the teacher we met @the 1st day of Prisha's school ...a very humble, soft spoken and kids friendly one. She welcomed Prisha with so much love that she got comfortable with her online classes in just 2 days. The methodology used is totally activity based which draws more interest of kids towards the class. It's like learning while playing. The festival celebration like Halloween, Diwali, Christmas etc has been so exciting. The bigger part is that the teacher is able to control the kids so gracefully even when it's online. So ...we feel blessed that Prisha is having such a great mentor from the very beginning of her educational journey.

Ms. Shefali
Mother of Prisha

My son was admitted in Pre Nursery in Oct. He has been attending Virtual classes since then. The curriculum is very engaging and gives equal importance to academics and extra circular activities. Indresh has adapted very well with the virtual class and enjoys participating in all activities. His class teacher Miss Moumita has been extremely patient and pays attention to each child in the class even in virtual environment. She is putting in a lot of efforts to ensure each student is participative and learns through these activities. I want to thank the school management, teachers and Moumita Ma'am for their efforts to keep up with the my child's learning needs during the pandemic situation.

Thank you

Ms. Neena
Mother of Indresh Sen
