# THEATRE at WORKSHOP

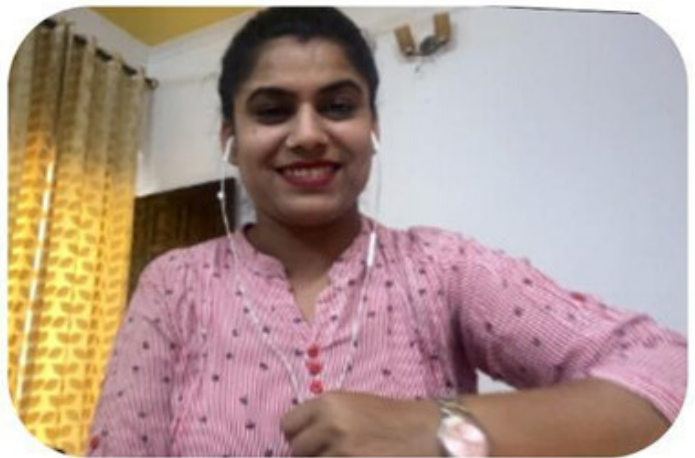

Akshara G. 

Niyati A. 

Shaurya M. 

## Dramatics

By Neelam Raghav

“Great theatre is about challenging how we think and encouraging us to fantasize about a world we aspire to.” – Willem Dafoe

3 days workshop on theatre was held at virtual platform. Workshop offered new insight and understanding to children. The workshop covered different aspects of acting, voice, props, improvisation, news reading and stage knowledge followed by basic life skills required as a theatre person. Students were given creative freedom to improvise and come up with their own ideas. Each and every student participate in the given tasks with great zeal.

# Chefs In The Making

## Chefs In The Making

By Kavita Sharma

"Food is life, Cooking is fun."

To make children aware of Nutritious food and the importance of Nutrients in the diet, young learners tried their hand in 'Cooking Without Fire'. They discovered that cooking can be a creative, easy and safe experience that is as much fun as it is to eat yummy delights that result from experience. They participated in full swing by preparing lip smacking dishes like lemonade, fruit salad, sandwiches, shakes and fruit desserts.

# Story Telling

## Story Telling

---

By Sangeeta Katyal

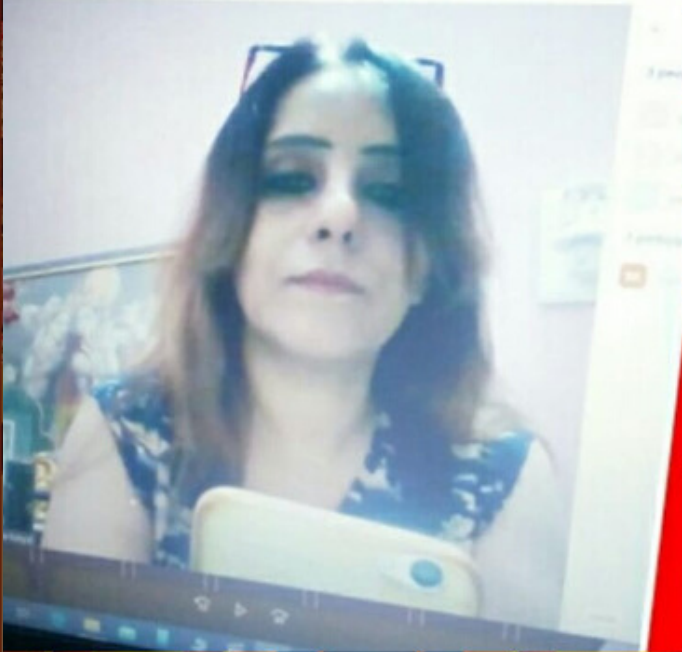

"Inside each of us is a natural-born storyteller, waiting to be released."

The purpose of storyteller is not to tell us how to think but to give us questions to think upon. It is one of the most effective ways to communicate with students. A story stays with children much longer than facts or statistics as it is not a seemingly endless download of Information but a never-ending journey of learning and understanding of the world around us.

"A story has no beginning or end: arbitrarily one chooses that moment of experience from which to look back or from which to look ahead."

dragon who could speak human language! He was shocked when the dragon was shouting help-help. Abra cadabra he said .And then he saved the dragon.the dragon asked shin shon for any 2 wishes and said whatever he asks will be full filled . shin shon then went into a deep thinking.After a while of thinking shin shon said 'i want to be rich through out my life and i want to be a magician'.The dragon then said ok and he told shin shon that today midnight a magic hat will come in his

### **TITLE- THE MISSION OF LIFE**

Once upon the time there lived a small kid in india his name was hriday . He was ten years old . He loved the bravery of all the freedom fighters. He would want to meet all of them especially BHAGAT SINGH because at a such young age he thought of throwing the britishers out of our country [INDIA] , so once hriday went to a scientist known as DR.MISHRA and asked him that can he have a time machine? DR.MISHRA said there is no such 'TIME MACHINE' made till date. Then hriday started thinking why can 't we make one... DR.MISHRA interrupted his thinking and asked what are you thinking kid? . Hriday then asked DR.MISHRA why can't we make one?.that's impossible replied DR.MISHRA . Nothing is impossible Hriday said proudly. Oh really? if that's true then lets make it said DR.MISHRA. Few months passed by

## Story Telling

By Sangeeta Katyal

To foster the skills of listening and reading, a storytelling session by Ms. Sangeeta Katyal was organized by St. Xavier's High School. Many moral-based stories & stories on topics like Bullying, Hard work, Time management & wisdom were shared. They learnt new words, pronunciation & also learnt how to write a story with some basic points like:

- Character
- He/She is in a situation with a problem
- Try to solve a problem
- But fail, making it worse
- They make a final attempt which may succeed or fail
- The consequence is not as expected

Last, but not the least, we also make them learn prompt writing that is so much more engaging, fun & very creative.

## Learning By Doing

## Learning By Doing

By Adya Dave

"Science is like Magic, we do it, we believe it."

Learning -by-doing is a practice in which productivity is achieved through Practice, Self- Perfections and minor innovations. Science of "Learning by doing" is amazing; kids who physically experience scientific concepts, understand them more deeply. During Summer break, little scientists of St. Xavier's unleashed their creativity by engaging themselves in fun filled activities.

# Learning By Doing

### SCIENCE SUMMER ACTIVITY

Learning By Doing Activity classes were taken by Ms. Adya Dave for Gr-VI kids to teach them the essence of Science in a fun and interesting way. Students enjoyed thoroughly by performing all the experiments as guided by her, as we say also.

*"Science is like magic, we do it, we believe it....."*

Following experiments were done :

- >  eruption
- > Walking water
- >  hand
- > Floating on water
- > Capillary action in plants
- > Hot & cold magic.

## Paper Flower Making

"Creativity takes lots of Creation, you don't take a photograph, you create it."

Creativity expresses imaginative Skill. It Produces a product, an object. Art expresses emotion.

Under the consistent guidance, Students excitedly learnt to create different flowers from normal colorful papers. The emotions and excitement of children can be seen through the flowers they created.

## Put On Your Dancing Shoes

## Tap To Beat Of Music

By Arun Kumar

Dance is a performing art form consisting of purposefully selected sequences of human movement. Dance, the movement of the body in a rhythmic way, usually to music and within a given space, for the purpose of expressing an idea or emotion, releasing energy, or simply taking delight in the movement itself. The idea of online summer Camp class was a great hit amongst all as it was a positive utilisation of students's time learning some extra skills. two styles taught were :

- Bolly Hop( Blend of Bollywood and Hip hop)
- MJ HOP (blend of Michael Jackson style and hip hop)

Theatre period is my favourite period. Not just that I love to act, but the way Neelam ma'am motivates me, I always look forward to attend it. She gives chance to everyone to express themselves. She gives us innovative topics and tells us different ways to act and be more creative. She encourages me when I do great and points out the things which I can improve. I love theatre class and the credit goes to Neelam

**Neelam Raghav**

Theatre class is also very important for me like other academic classes. It has improved my creativity and confidence. I get to create my own imagination rather than following any script. I am improving day by day. 100% credit goes to my theatre teacher NEELAM MA'AM 🍷

🍷. Thank you so much Ma'am to discover my love for theatre. It's all because of freedom and support given by you. Thank you so much Xavier's for a wonderful teacher like her. Hoping for more learning in future. 🥰🥰
