MONDAYS LOGICAL REASONING BY

Ms. Archana Arora

Week 1

Logical reasoning refers to the ability to understand and logically work through concepts and problems expressed in words. Children were taught Analogy in the first week. Students were taught **analogy** where they were made to compare two things that are mostly different from each other but have some traits in common. Children thoroughly enjoyed the session, as they were able to logically find a solution to a question.

Week 2

The children engrossed themselves in learning Magic with numbers where they were made to use their Mental Math skills. **Mental Math** is a skill that allows people to do **math** "in their head" without using pencil and paper or a calculator. This lesson presented the tricks that allowed the children to solve multiplication problems in a matter of seconds. Students thoroughly enjoyed the Mental Math session and it also helps improve concentration, problem-solving skills and reasoning abilities.

Week 3

In the third week the students were taught the **Alphabet Series** in order to prepare the kids for **Olympiads** and various challenging competitions. They were taught how to find the place of an alphabet or a word based on the different types of arrangements. Here, children learnt different forms of Alphabet Arrangements, problems based on Letter-Word, Alphabetical Quibble and New Word Formation, etc.

TUESDAYS

***CRAFTY MORNINGS:
BEST OUT OF WASTE***

BY

Ms. Neha Shaw

Week 1- Paper Flower

Students were asked to keep waste newspaper, colour, brushes, glue and some decorative materials with them. Students were excited to know what they were going to make. They followed the instructions and made beautiful flowers of waste newspapers. They were suggested the different ways of using these flowers as wall hanging or tissues paper holder.

Week 2- Wall Decor

The class began using the same core material. The students created the wall decor by using patterns with colour. All little artists were very excited to make the wall hanging and showed their best of creativities.

Week 3- Wall Hanging

As it was last week, students were waiting to learn a new thing with the waste newspaper. They were asked to keep newspaper sticks with them, which they learned in previous class. Students made wall hangings using these sticks and coloured sheets. They gave it a beautiful look indeed.

WEDNESDAYS

PAPER FLOWER MAKING

BY

Ms. Neha Singh

Students were so excited to learn to make different flowers from colorful paper. They followed all the steps very meticulously and were able to make such beautiful flowers in the activity classes held this Summer Vacation.

Week 1- Carnation Flowers

Carnation paper flowers look like natural flowers but last longer and won't wilt or droop. That's why they are very popular for party decoration. One can also make different kinds of Carnation paper flowers to match the occasions in any season.

Week 2- Lily Paper Flowers

Lily paper flowers make appropriate gifts for many religious holidays, gift of the flowers for the birth of a new baby or a child's birthday.

Week 3- Peony Flowers Sticks

Peonies are simply beautiful and classic. It's no wonder that one would want to have them as their centerpieces, party decorations, and room decor. They make incredible additions to any decorations anywhere and everywhere!

THURSDAYS STORY TELLING BY

Ms. Ritika Mattoo

Week 1

Video of "Aladdin & The Lamp" was shown to the students. They were very excited and eagerly shared their thoughts and views about the story.

Week 2

Video of "The Devil With Three Golden Hair" was shown to students. It was an interactive session as students were talking about the minute description of each character. They liked the story and willingly shared their thoughts and moral of the story.

Week 3

Children were shown the video-"The Tale of the Bamboo Cutter". It was an interactive session as students shared their point of view, moral of the story and their favourite part of the story. All of them loved the story telling sessions which ignited the little storyteller in them.

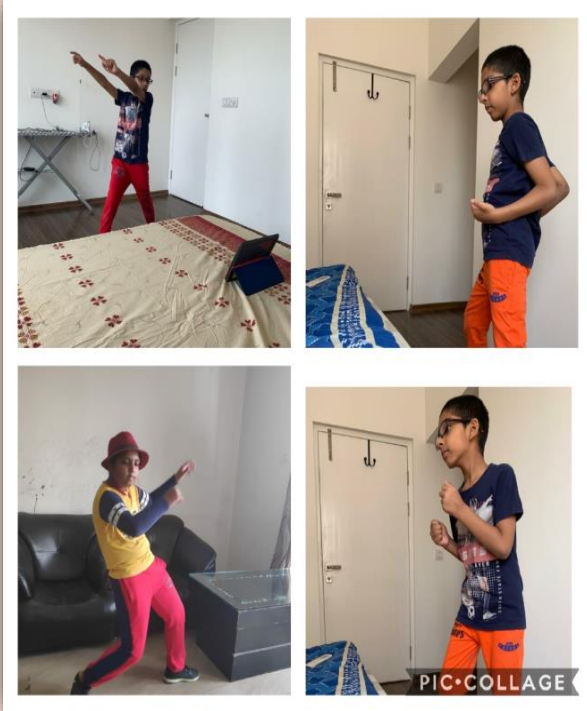

FRIDAYS

TAP YOUR FEET TO THE MUSIC

BY

Mr. Arun Kumar

The idea of Online Summer Camp class was a great hit amongst students, parents and all of us. It was a positive utilization of time for students as they were learning some extra skills apart from school syllabus/regular classes.

Two styles were taught in these classes...

1) Bolly Hop (A Blend of Bollywood and Hip Hop)

Our sensational **Bollywood Hip Hop Dance** Group is one of the most talked about dance acts in India. Pushing the boundaries between Hip Hop dancing and traditional Bollywood values, this incredible Indian dance group also fused their passion for body popping, robot dancing and Michael Jackson with many moon walking routines finding their way into the groups dance shows.

2) MJ Hop (Blend of Michael Jackson Style and Hip Hop)

With just a few glides backward, Jackson made dance history when he introduced the moonwalk in 1983. ... The move, though, was already popular among West Coast street dancers who were using a precise, mechanized style of movement called popping. It proved to be a great hit too with these young kids.

SATURDAYS LEARN TO BAKE BY

Ms. Manisha Jain

Week 1

Our young chefs made beautiful choco pops from Oreo biscuits. After preparing the chocolate balls, they rolled them into hot chocolate to create their yummilicious pops. They all were very excited and happy to learn. All the children made the recipe very tempting by adding their own creative element to it.

Week 2

Cake full of chocolate layers was made from Marie biscuits. It was totally made without fire. All the children were eagerly waiting to learn no bake cake. They all were super excited to make this recipe and garnished it also in very innovative way.

Week 3

Pizza is one dish, which is popular among all ages. Its aroma tickled the taste buds of all the budding chefs. Our young bakers were all set to do real baking by making their own Cuppo Pizza. Cheese burst Cuppo Pizzas were made using flour, egg, vegetables, oregano and lots of cheese. The super easy and quick pizzas were made in less than two minutes using microwave. Pride of making this recipe independently without their mother's help was evident in vibrant and blushing smiles of all of these young Xavierians.
