

Visit to Parle-G Factory

Field trips give children a chance to experience hands-on learning while also being introduced to new environment. Keeping this in mind the students of classes III - V were taken to Parle - G factory. At the factory they were taken through the journey of a biscuit from the baking stage to the final product. They were taken around the factory where they interacted with the workers involved at every stage and understood the steps involved. They witnessed the Quality checks in place at each stage which had helped Parle to become a leading member in the biscuit industry and a household name.

At the plant they saw how biscuits once ready were packaged and transported into trucks ready to reach the market and from their our houses.

The icing on the cake was the samples of chips, biscuits and sweets that one got to taste. The children returned satiated ready to visit the nearest shops to procure biscuits.
