

PRATAP INTERNATIONAL SCHOOL

Grade – IV

(October to December 2023)

SYNOPSIS : We hoped everyone enjoyed Thanksgiving. Now it was on to our Winter Holidays — Hanukkah, Christmas & Kwanzaa. That meant there was lots of seasonal festivities and fun in our classroom, making it an exciting time for your child. Extracurricular activities provided fun and enjoyment, which kept kids motivated when their school work became challenging. Hence, we planned a lot of fun activities for our children, which they enjoyed thoroughly.

❖ **Gandhi Jayanti :**

Honoring the Legacy of Mahatma Gandhi on Gandhi Jayanti! On this auspicious occasion of Gandhi Jayanti, we paid tribute to the Father of the Nation, Mahatma Gandhi, whose principles of non-violence and truth continued to inspire generations. Gandhi Jayanti was not just a day; it was a reminder of the power of simplicity, compassion, and resilience. Let's reflect on his teachings and strive to incorporate them into our lives. As we celebrated this day, let's pledge to be the change we wished to see in the world, just as Bapu envisioned. Join us in spreading love, tolerance, and unity - the timeless values that Mahatma Gandhi stood for.

“Peace, nonviolence, and truth.”

❖ Halloween Celebration :

Students at Pratap International School had a howling good time at our Halloween bash! 🎃🍩 From scary costumes, games, and spine-tingling fun to wickedly tasty treats, it was a hauntingly good time! Thanks for making it a fantastic eve to remember!

“Conquer your mind and conquer the world”

❖ Knowledge and Understanding of the world :

➤ Creating 3D Shapes from 2D shapes :

- Introduction: In geometry, we often use two-dimensional (2D) shapes to describe and analyze the properties of objects. However, many objects in the real world are three-dimensional (3D) and have depth. In this activity, we will explore how to create 3D shapes using 2D shapes. By doing so, we can enhanced our understanding of the relationship between 2D and 3D geometry.

Conclusion: By constructing 3D shapes using 2D shapes, we could better visualize the transition from the flat, two-dimensional world to the three-dimensional space. Through these activities, we learned how to make a cube, pyramid, and cylinder using simple folding and rolling techniques. This hands-on experience gave us a deeper understanding of geometry and helped us recognize the connection between shapes and their spatial dimensions.

“WELL DONE IS BETTER THAN WELL SAID.”

❖ PIS Team Celebrations :

➤ Navratri Celebration :

Celebrating Navami Poojan at Pratap International School was a divine experience! 🙏 The day began with a sacred Hawan Poojan, where we sought blessings and offered our gratitude. 🙏🙏 Later, the joy of serving and pampering young souls during Kanya Bhoj was heartwarming. 🤍👩🍳 A day filled with faith, devotion, and love. 🌸
