**A Glimpse of the Event**

**Objectives: To enable the learners to**

- gain a deeper understanding of the scientific concepts or processes represented by the model.
- develop skills in constructing models using various materials, enhancing their ability to translate abstract concepts into physical representations.
- engage in critical thinking by analyzing how well their model represents the scientific concept and identifying any limitations or areas for improvement.

***“Science is a way of thinking much more than it is a body of knowledge”- Carl Sagan.***

MBS International School organized Scientific Model presentation Competition for the students of Classes VI to VIII on 21 August 2024 wherein the students embarked on a journey to bring abstract scientific concepts to life through model-making. Armed with a variety of materials and boundless enthusiasm, they crafted intricate models representing various phenomena. Each presentation was a vivid exploration, with students confidently explaining their models and the underlying scientific concepts. This hands-on activity not only deepened their understanding but also sparked their imagination, turning theoretical knowledge into tangible, interactive learning experiences.

**JUDGEMENT CRITERIA:**
