April 18, 2024

Dear Parent

Namaskar

We request you to take steps to safeguard your family & community against vector borne diseases. We hope to see everyone safe & healthy.

- To avoid mosquito bites wear full-sleeved clothing and use mosquito repellents. Put wire mesh on windows to prevent entry of mosquitoes (if possible).
- Cover all water tanks and containers with well fitted lids to prevent breeding of mosquitoes.
- All overhead and other water tanks / containers are to be properly covered with lid and overflow pipe / air vent are to be covered with wire mesh/cloth. In case of missing / broken lids matter may be taken up with PWD on priority.
- All coolers should be scrubbed and cleaned once a week and mopped dry before refilling water.
- In coolers that cannot be emptied, put one tablespoon of Petrol / Diesel.
- All unused containers, junk materials, tyres, coconut shells, etc. should be properly disposed off.
- Change water of flower vases, plant pots, bird pots every week to prevent mosquito breeding.
- Cover the toilet seat if going out of home for more than a week.
- Use bed nets at home and hospital during Dengue fever to prevent mosquito bites and to interrupt transmission, use aerosol, vaporizers (Coils/mats) during day time.
- Take plenty of fluids and rest in case of fever. Consult a doctor.
- Don't allow water to stagnate in and around houses.

Note: Encourage your ward of Class II – XII to do any or all of the following:

- a) Write an article on preventing breeding of mosquitoes.
- b) Write a slogan on 12" x 4" sheet on preventing mosquito borne diseases.
- c) Make an A4 size poster on preventing mosquito borne diseases.
- d) Write a poem on vector borne diseases in your creative writing notebook in either Hindi / English.
