- Promote sustainability through recycling.

"The art of transforming the ordinary into the extraordinary is the essence of creativity." - Anonymous

The Eco Club of the school organised an **Inter-Class Competition - ‘Creative Crafts: Best out of Waste Table Mat Making’** for class III on Wednesday, 28 August 2024. Students participated with enthusiasm, using only recycled or repurposed materials to design unique table mats. The activity aimed to foster creativity and environmental consciousness among students.

Through this hands-on experience, students learned the importance of recycling and reusing materials, turning waste into something useful. The activity also encouraged them to think critically about sustainability and develop a deeper appreciation for eco-friendly practices. The students demonstrated exceptional creativity, receiving admiration from teachers and classmates. The activity was a great success as it, inspired students with a deeper commitment to environmental stewardship.
