Teacher Incharge	: Ms. Rishu Kaul

A Glimpse of the Event

Objectives:

- To engage students in researching and debating the potential of green jobs in addressing environmental and social issues.
- To develop critical thinking and public speaking skills.

“A strong renewable energy industry is good for our environment and our economy.”

Roy Cooper

Debates provide a platform for students to explore complex issues from multiple perspectives and develop critical thinking skills. With this motive, the Eco Club at MBS International School, Dwarka, New Delhi organised a debate competition themed **Green Talking Heads-"Green Jobs and Economic Growth: A Solution to Environmental and Social Issues"** for the students of Class IX on 28 August 2024 in the school premises. Engaging students in discussions on topics like green jobs and economic growth enabled students to gain a deeper understanding of the interplay between environmental, social, and economic factors in shaping our world.

The students actively articulated their arguments, supported their claims with evidence, engaged in respectful discourse, and effectively communicated their ideas. Green jobs could contribute to sustainable economic growth while addressing environmental degradation. Transitioning to a green economy would foster innovation and will enhance global competitiveness.

Judgement criteria :

- **Presentation**
- **Fluency**
- **Validity with the motion**
- **Content**

Result of the competition:

S.NO	Student Name	Class	Positions
1	Suprathik	IX B	FIRST
2	Preeti Bisht	IX A	SECOND
3	Rishabh	IX A	THIRD
