A Glimpse of the Event

Objectives:

- Promote creativity, resourcefulness.
- Enhance environmental awareness by transforming discarded material.

“The greatest threat to our planet is the belief that someone else will save it.”– (Robert Swan, Author)

The **Eco Club** of school organised an **Inter-Class Competition - ‘Creative Crafts: Best out of Waste Bottle Making’** for class V on Wednesday, 28 August 2024. The event aimed to inspire students to think creatively about waste management and the potential uses of discarded materials.

The students showcased their creativity and resourcefulness in transforming discarded bottles into stunning vases. A variety of designs and techniques were used, including painting and decorating. They learned about the importance of recycling and upcycling in reducing waste and conserving natural resources. The activity promoted teamwork, problem-solving, and critical thinking among participants.

It was a resounding success, demonstrating the potential for creativity and innovation in waste management. The event inspired students to adopt sustainable practices and think creatively about reducing, reusing, and recycling waste.
