SDG MATRIX-A Magic Square of SDGs

"The only way to learn Mathematics is to do Mathematics."

-Paul Halmos

Dear Parent

In recreational Mathematics, a square array of numbers, usually positive integers, is called a magic square if the sums of the numbers in each row, each column, and both main diagonals are the same.

To encourage the students to practise addition and puzzle solving combined with Sustainable Development Goals, we, at QVS, are organising a competition titled **SDG Matrix- A Magic Square of SDGs** for Class VIII on **Thursday, 23rd December, 2021** on MS Teams from **4:00 pm to 5:00 pm**. You are invited to attend the meeting via MS Teams Calendar and encourage your friends.

Heartiest congratulations to all the short-listed students.
