2.	Date of the activity	23 rd April 2024
3.	Organized by	ITL Public School
4.	Classes	Classes V to XII
5.	Description of the activity	<p>ITL Public School's Earth Day exhibition exemplified the intersection of cultural enrichment and environmental advocacy, showcasing the creativity, innovation, and dedication of students in demonstrated their role as Earth Guardians, working tirelessly to foster a Plastic-Free Earth.</p> <p>The event aimed to inspire and embrace eco-friendly practices and support initiatives focused on soil conservation, water protection, and sustainable fashion.</p> <p>Sustainable Fashion -Pratibha House: The exhibition commenced with a vibrant display of sustainable fashion, featuring garments crafted from ethically sourced materials, recycled fabrics, and innovative eco-friendly designs. Students showcased their creativity through clothing lines that emphasized sustainability, demonstrating how fashion can be both stylish and environmentally conscious.</p> <p>Eco-Entrepreneur- Prayas House: The heart of the exhibition showcased the entrepreneurial spirit driving environmental innovation. Students presented projects and initiatives aimed at addressing pressing environmental challenges while fostering economic growth. One notable exhibit focused on eco-entrepreneurs who are pioneering solutions in renewable energy, waste management, and sustainable agriculture.</p> <p>Soil Savior- Prerna House: A key highlight of the exhibition was dedicated to initiatives aimed at soil conservation and regeneration. Students showcased projects focused on composting, organic farming, and soil remediation techniques. Students learned about the importance of healthy soil for food security and biodiversity, as well as the role of regenerative agriculture in mitigating climate change.</p> <p>Water Warriors- Pragati House: The exhibit underscored the importance of preserving Earth's most precious resource: water. Students presented innovative solutions for water conservation, pollution prevention, and access to clean water. From rainwater harvesting systems to filtration technologies, the showcase highlighted the diverse ways in which communities can protect and steward water resources.</p> <p>#Earthday #PlasticFreeEarth #EarthGuardians #Connectnature</p>
