2.	Class	I-XII
3.	Subjects involved	Fashion Studies, Environment
4.	Facilitator	Ms. Prachi
5.	Brief description of the activity	<p>➤ Brief description of the Activity- ITL Public School observed World Paper Bag Day on 12 July, 2024 with an aim to raise awareness about the environmental impact of plastic bags and to promote sustainable alternatives. Students of classes I to X enthusiastically participated in the paper bag making activity producing various designs to showcase their creativity. The activity helped students gain a profound understanding of the environmental issues associated with plastic bags and the benefits of using sustainable alternatives.</p> <p>Furthermore, through the hands-on activity, students improved their crafting skills and learned how to create paper bags from recycled materials. The activity not only educated the students about the importance of sustainability but also empowered them to take wholesome actions towards a greener future. The activity was a testament to the school's commitment to environmental education and our dedication to nurturing responsible global citizens.</p>
6.	Time period of this Activity	Approximately 1 Hr
7.	Evidences included
