

REPORT ON COMPETENCY BASED ASSESSMENT FOR SCIENCE

NAME OF THE EVENT: COMPETENCY BASED ASSESSMENT FOR SCIENCE

DATE: 26th & 27th June, 2024

VENUE: ITL PUBLIC SCHOOL, Sector 9 Dwarka

CONDUCTED BY: CBSE SANKALP SAHODAYA

"Education is not the learning of facts, but the training of the mind to think."

This quote by **Albert Einstein** highlights the essence of competency-based learning, emphasizing the importance of developing critical thinking and problem-solving skills over mere memorization of facts.

CBSE Sankalp Sahodaya, South West Delhi, organised a transformative two-day workshop on Competency-Based Assessment in Science for Secondary Level on June 26 & 27, 2024, at ITL Public School. Esteemed resource persons, Dr Reetika Bhandari and Ms. Pratishtha Gupta, both CBSE Master Trainers, led this insightful session, equipping educators with essential knowledge, skills, and tools for effective implementation of competency-based assessment strategies.

The resource persons emphasized the importance of designing assessments that authentically reflect real-world applications of scientific knowledge and skills. Practical examples and case studies were shared to illustrate best practices in evaluating competencies such as critical thinking, problem-solving, and scientific inquiry.

Educators were empowered to create assessment items which were then peer-reviewed and refined with valuable feedback from the resource persons.

This interactive workshop provided practical skills to enrich teaching practices which can be used to enhance student achievements in Science.

In today's educational landscape, where the focus is shifting towards competency-based assessment, this workshop was a pivotal step in advancing professional development and enhancing educational quality.
