*“Learning another language is like becoming another person.”*

In order to apprise the teaching fraternity about the innovative content, as well as the recent changes in the teaching methods, **New Saraswati House** conducted an Online Workshop. The idea was to introduce new changes done in the new version of “**Apprenons le Français Book**” for the beginner’s level and regenerate new techniques to deal with day to day teaching and learning process in the classroom.

The session focused on new features that have been introduced in the new “Apprenons le Français” published by New Saraswati House, presented through complete demonstration of functions. Discussion on key challenges faced by teachers to make their classrooms more interactive and interesting followed the session. Many new activities and games to be used on a day to day basis in the classroom were demonstrated. Teachers were also given few worksheets/games/activities to be solved and later discussed in the session. The idea to strengthen oneself was focussed with key areas of **grammatical content as well as on the listening practice for students**. Some teachers also asked about the **changes in the curriculum of class X Board**. Many new websites that are teachers and students friendly were introduced. The workshop not only provided a meaningful insight but also rendered a motivated vision to deal with the challenges, making the classroom interactive, innovative and conducive to learn.
