Online seminar on ZOOM

A two-day virtual seminar on “**Air Pollution and Its Health Impact On Children**” was organised on 29-30 April 2020 to strengthen the understanding of air pollution and infuse learnings on air pollution in classroom teachings. Over 209 educators and stakeholders all over India participated in the seminar.

Introductory session on Day 1 “**Air Pollution in India: Trends and Solutions**” was taken by Ms.Shambhavi. The resource person emphasised on indoor Air pollution and how the GSP Audit can play a role in it. It involved discussion on various issues and solutions relating to air pollution, such as monitoring stations, mobility practices, and trends, etc.

Several online activities such as quiz on” Use and regulation of diesel vehicles”, understanding air quality, mapping exercise, etc. were organised.

On Day 2, Session on “**Mobility Practices and Trends: Way Ahead**” was conducted by Mr Adarsha Kapoor. The session focussed on the current mobility practices in states and discuss solutions leading towards sustainable mobility for schools.

The GSP Audit 2019 Performance report and discussion was followed by the valedictory session.

It was a great opportunity for all to interact with the teachers across the nation and experience collaborative learning through interesting activities.

Participants who attended both days of the seminar were awarded digital certificates.
