

## **Multi – Sensorial Integrated Learning Experiences (M.I.L.E.) Workshop**

Date: 9<sup>th</sup> November, 2013

Organized by: ITL PUBLIC SCHOOL

Attended by: Kindergarten teachers

On Saturday, 9<sup>th</sup> November, 2013, ITL PUBLIC SCHOOL organized a workshop for all the kindergarten teachers of ITL CANDYFLOSS and the Primary Wing. This workshop was conducted by **Dr. Saroj Thapa, Head of the department of Teacher Development at LEARNTODAY.**

The name of the workshop was **Multi – Sensorial Integrated Learning Experiences (M.I.L.E.)**

Dr. Saroj Thapa commenced the workshop by stressing on the five senses that the children use while learning. The workshop focused on using multiple channels for learning and remembering, as it helps enormously in retrieving the information for application in another situation.

The participants were asked to do many hands-on activities covering different domain areas. They were asked to wear comfortable clothes, as the activities required a lot of drawing and colouring. During the workshop, the teachers learnt to think in terms of involving as many senses as possible in the process of learning so that a child's learning becomes immensely developmental.

She emphasized on the holistic development of a child which covers cerebral, physical, social, emotional and spiritual areas. The main learning objectives of the workshop were recognizing one's own dominant channel and experiencing that learning from multiple sensorial channels leads to deeper understanding.

The workshop ended with a vote of thanks by the co- coordinator Ms. Ruchi Sahni. The Deputy Headmistress Ms. Meena Ramneesh presented her a beautiful planter as a small token of love and gratitude.
