

Workshop on ‘Making Mathematics Meaningful for Students’

Organized By:

Sanskriti School

Date& Venue:

February 14 – 16, 2013

Sanskriti School

Attended By:

Ms. Shikha Gautam

Sanskriti School hosted a 3-day professional development program- ‘**Making Mathematics Meaningful for Students**’. The motto of this program was – Refresh, Relearn and Reflect. The objectives of this program were:

- Providing a platform for teachers to interact with and learn from the experts affiliated with reputed institution of higher education and
- Empowering teachers to use technology in teaching and learning of Mathematics.

The schedule for the day included a session with Dr. Shailiesh Shirali, Director, Community Math Centre, Chittoor, who shared his insight on the topic Vector Analysis and proved some important theorems and examples with the participants. Mr. Girish Belkar, Indus World School, Indore, helped us to explore GeoGebra – A mathematical application used in the study of arithmetic, geometry, algebra and calculus. All the participants were also given a 2-hour hands on session on GeoGebra and TI-Nspire Classroom Solutions on the use of technology in classrooms.

The program in whole was a good experience and provided all the participants with an engaging and enriching experience.
