

## INTERNATIONAL SIGN LANGUAGE DAY

Date : 23 September, 2024  
Organised by : ITL PUBLIC SCHOOL  
Classes : III - XII

Sign language is more than a series of hand movements; it is a powerful means of expression and unity. In 2024, under the theme '*Sign Up for Sign Languages Right,*' we are committed to empowering our signing hands to build bridges, not barriers.

Our Peer Leaders led the way by teaching basic signs to all classes, effectively breaking down communication barriers and fostering compassion. Through their efforts, we promoted understanding and inclusivity, creating a more connected and empathetic environment.

Together, we celebrated the power of sign language in advancing inclusion and enhancing communication—a step closer to a world where everyone can communicate freely, without limits. Let us continue to work towards a future where communication knows no bounds.
