Content:

A CCD Workshop on topic " Details of Studying Abroad and drafting LORs, SOPs along with Profile Building was conducted in J.M International School on 29th August, 2024 in auditorium for students of grade XI and XII. Guest speakers Mr. Rakesh Bhatia and Ms. Bhawini Vasudev conducted the workshop. It started with introducing both the speakers followed by Mr. Bhatia stating the advantages and disadvantages of studying abroad. He spoke about the competitive exams required to get admission in foreign universities and enlightened the students about profile building which includes research papers, social projects, internships, etc. He also encouraged them to participate in summer camps and do internships so that they get real-life experience and build a strong profile. Mr. Rakesh concluded by telling the process of patenting ideas and its importance for students. After this Ms. Bhavani took over and gave insights on research papers, writing books and publishing it, tech projects, podcasts, website development and personality development sessions. She advised the students to do all the said activities so as to build a strong profile which will help them with get admissions and scholarships to abroad universities. The session concluded by taking doubts of the students. The session was informative and helpful for the students who plan to go abroad for higher studies.
