STORY SESSION

THE LITTLE RED HEN

There was a red hen. One day the hen found a grain of wheat in the farm. She wanted to plant it. She went to the cat and asked the cat, “cat friend, cat friend will you help me? I wish to plant this grain of wheat.” Cat said, “No, I am busy.”

She went to the dog and said, “Dog friend, dog friend will you help me? I wish to plant this grain of wheat.” Dog said, “No, I am busy.”

She then went to the rat and requested but rat also refused. Then she did it all by herself.

When it was time to bake the bread she again asked all her friends, but they all refused. Again she did all the work by herself.

Now it was time to eat the bread. Cat, dog and rat wanted to share the bread. They thought, the hen will not share the bread with them as they refused to help her. But the hen was very kind and she shared the bread with all of them

Moral- Sharing is caring.

Value Education : To be kind towards birds and animals

Teaching kids to have compassion and empathy for their furry, feathered, and finned friends is vital for preventing cruelty to animals as well as in raising them to respect and treat those who are different from them with kindness.

Attitude : Being humble and sensitive

Humility is about being modest, respectful and putting others before yourself. Being humble makes you a better person, a better student and a better team- mate. We must teach our kids to be sensitive towards others in order for them to be responsible and concerned human beings.

Life-Skills

Decision – making:

Children need to practice making decisions to gain confidence in their own abilities. For example, sometimes your child can choose the activity of the day; they should be choosing what toys to play with and where to sit etc. Too much adult control over a child's decisions may foil him/her from becoming a critical thinker.

INTER-PERSONAL – SHARING & CARING

Sharing in all its forms is a truly powerful way to bring happiness. It is fundamental to the development of all human relationships. Not only does sharing bring us joy, it teaches us the importance of taking care of others.

For Parents

1.) Help your daughter to practice value counting of the numbers with the objects.

2.) Help your daughter to write her name and date.

- 3.) Read out a short story to your daughter and help her read the English Reader every day.
- 4.) Encourage your daughter to observe different birds – their physical features and their food habits.

- 5.) Talk to your daughter about showing compassion towards animals and birds.
