**Day & Date: Monday, 06 January 2025**

**Venue: School Auditorium**

**Attended by: Students of Class X**

### **Glimpse of the Event**

- Importance of SDGs
- Profile building around SDGs
- Introduction to GoSharpener Platform
- 

A workshop on Sustainable Development was organised on 6 January 2025, for Class X students at MBS International School. The session was led by Mr. Ankit Kapoor, Co-Founder of GoSharpener, who provided valuable insights into the importance of Sustainable Development Goals (SDGs) and the critical role young individuals play in achieving these objectives.

The workshop began with an engaging discussion on the Sustainable Development Goals, where students were introduced to the 17 global goals aimed at addressing pressing challenges such as climate change, responsible consumption, and sustainable urbanisation.

The workshop also introduced students to GoSharpener, an innovative digital platform that rewards students for sustainable actions and tracks their efforts through a digital sustainability scorecard. The students learned how GoSharpener aligns with global organisations like PETA India, rewarding their contributions with points and recognition.

The session concluded with an interactive discussion, where students shared their ideas for incorporating sustainable practices into their daily routines and communities.
