

ITL PUBLIC SCHOOL
PRE ANNUAL EXAMINATION (2024-25)
MATHEMATICS

DATE:
TIME: 2Hr
NAME:

CLASS: IV Sec: ___

Roll No:

SECTION – A

1 a) Answer the following in one word.

i) If cost of 1 gift is ₹ 40, What will be the cost of 6 such gifts?

Ans $40 \times 6 = ₹ 240$

ii) The weight of lighter objects are measured in which unit?

Ans grams

iii) If 1 * = 5 gifts, 5 * will be how many gifts?

Ans = $5 \times 5 = 25$ gifts

iv) Find the perimeter of a square with side 5 cm

P = $4 \times \text{side} = 4 \times 5 = 20$ cm

2 Complete the table:

Figure	Formula for perimeter
Square	$4 \times \text{side}$
Rectangle	$2 \times (L + B)$
Triangle	Sum of all side

3 Story Based question:

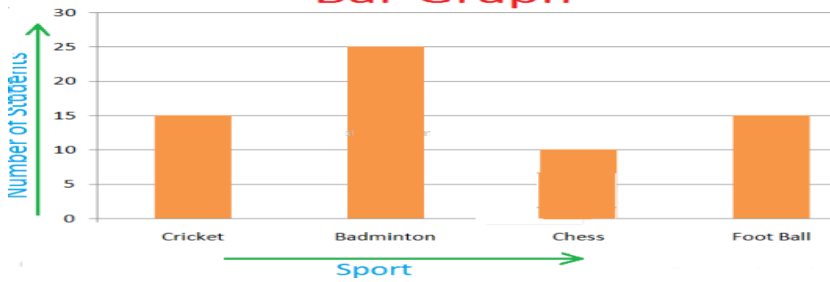

Story based questions

A survey was conducted in Rahul's School to record the most liked games among the students.

Rahul and his friends decided to represent the data in form of a bar graph as shown below.

Read the bar graph and answer the following questions

Bar Graph

- Which sport is liked by maximum students? **Badminton**
- Which sport is liked by minimum students? **Chess**
- Which sports is liked by equal number of students? **Cricket and foot ball**
- How many students like chess? **10**
- How many students like cricket? **15**

4 **Observe the given pattern and complete it:**

5 **Solve:**

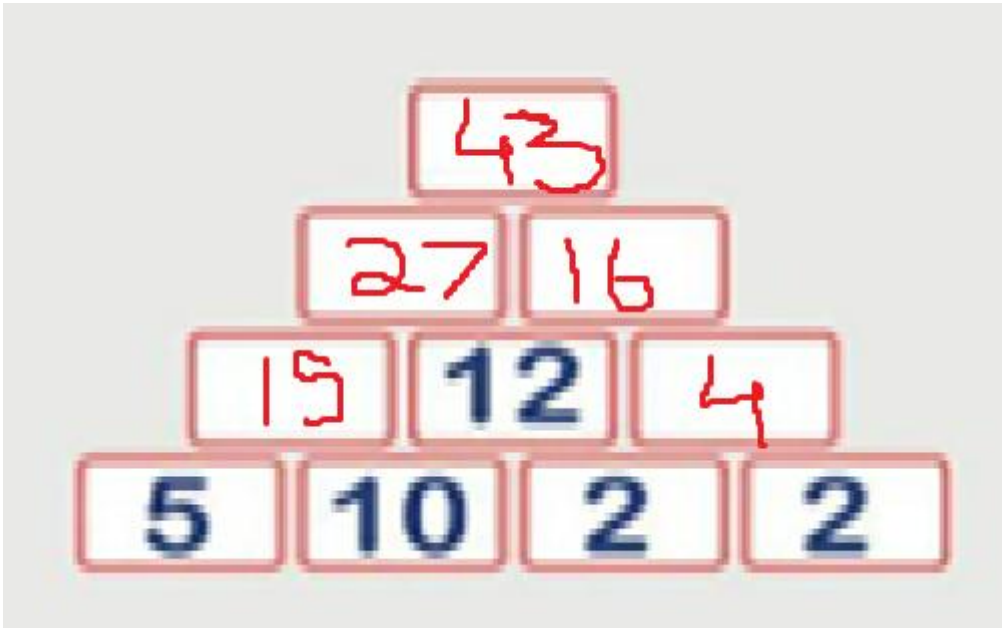

- $4567 \times \underline{1} = 4567$
- $100 \times 20 = \underline{2000}$
- The answer of division is called as **quotient**.
- two** times 500 g makes a kilogram.
- $750 \text{ g} + \underline{250} \text{ g} = 1 \text{ kg}$
- $3490 \div 10$ gives Q = **349**, R = **0**

SECTION-B

6 a) Write Tally marks for :

- 12 b) 9

7 Complete the given addition hill:

8 Find out how many notes will you get for ₹ 2000 if:

a) You have all 50 rupee notes. – $2000 \div 50 = 40$

b) You have all 100 rupee notes. $2000 \div 100 = 20$

9 Convert the following:

a) 4526 g into kg and g

b) 3 kg 178 g into grams

$$1 \text{ kg} = 1000 \text{ g}$$

$$1 \text{ kg} = 1000 \text{ g}$$

$$4526 \text{ g} = 4526 \div 1000$$

$$3 \text{ kg} = 3 \times 1000 = 3000 \text{ g}$$

$$= 4 \text{ kg } 526 \text{ g}$$

$$3 \text{ kg } 178 \text{ g} = 3000 + 178 = 3178 \text{ g}$$

10 Find the perimeter for the following figure:

$$\text{Perimeter} = \text{Sum of all side} = 4 \text{ cm} + 2 \text{ cm} + 3 \text{ cm} + 3 \text{ cm} + 2 \text{ cm} = 14 \text{ cm}$$

OR

Find the perimeter of a triangle with sides 10 cm, 12 cm and 15 cm.

$$\text{Perimeter of triangle} = \text{Sum of all sides}$$

$$= 10 \text{ cm} + 12 \text{ cm} + 15 \text{ cm} = 37 \text{ cm}$$

SECTION – C

12 **Solve the following:**

a) 2453×37

b) $1652 \div 12$

$$90,761$$

$$Q = 137 \quad R = 8$$

13 a) Perimeter of a square field is 148 m. Find the length of its side.

Ans **Perimeter of square field = 148 m**

$$\text{Length of its side} = P \div 4 = 148 \div 4 = 37\text{m}$$

$$\text{Henc length of the side of square field} = 37 \text{ m}$$

b) Find the perimeter of a rectangle with length and breadth 12 m and 11 m respectively.

$$\text{Length of rectangle} = 12 \text{ m}$$

$$\text{Breadth of rectangle} = 11 \text{ m}$$

$$\text{Perimeter of rectangle} = 2 \times (L + B)$$

$$= 2 \times (12 + 11) = 2 \times 23 = 46 \text{ m}$$

$$\text{Hence perimeter of rectangle} = 46 \text{ m}$$

OR

You and your friends decided to decorate the fencing around the playground to make the playground neat and beautiful. If the length of the playground is 24 m and breadth is 16 m.

- Find the total length of fence to be decorated.

$$\text{Length of playground} = 24 \text{ m}$$

$$\text{Breadth of playground} = 16 \text{ m}$$

$$\text{Length of fence to be decorated} = \text{Perimeter of the playground}$$

$$= 2 \times (L + B)$$

$$= 2 \times (24 + 16)$$

$$= 2 \times 40$$

$$= 80 \text{ m}$$

$$\text{Hence the length of fence to be decorated} = 80 \text{ m}$$

14 Read the given data and represent the same in a pictograph

Favourite Book	Fiction	Sports	Comic
No of students	25	30	45

Use scale 1 = 5 books.

Favourite Book	Number of students									
Fiction	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>					
Sports	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>				
Comic	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

15 Read the given table and answer the following questions:

Bird Count		
	Sparrows	Robins
Friday		
Thursday		
Wednesday		
Tuesday		
Monday		

- a) How many Sparrows were counted on Thursday and Friday. $4 + 1 = 5$
- b) On Monday what was counted more – Sparrows or Robins and by how much.
Sparrows , 1
- c) Find the total number of Robins collected. $5 + 3 + 1 + 2 + 1 = 12$
