SECTION – A

1 Read the passage and answer the following questions:

The cheetah is the fastest land animal in the world, capable of reaching speeds up to 120 km per hour, though it can only maintain this speed for a short duration. Cheetahs have slender bodies, long legs, and a flexible spine, which help them achieve such incredible speed. They majorly hunt during the day and depend on their excellent eyesight to spot prey from a distance. Unlike other big cats, cheetahs cannot roar but can purr, chirp, and make other vocal sounds. They mainly feed on small to medium-sized animals like gazelles and impalas. Cheetahs are lonely creatures, but mothers are often seen with their cubs, teaching them essential survival skills. Their spotted coats not only help them blend into the grasslands but also help them hide from the hunters. Unfortunately, cheetah populations are declining due to habitat loss and poaching.

a) What is the maximum speed a cheetah can run?

b) When do cheetahs hunt?

c) What type of animals do cheetahs mainly eat?

d) What is unique about the sounds cheetahs make?
