The Primary Section's Science Club conducted an engaging experiment on Friday, 8th November 2024 on the Dispersion of Light through a Glass Prism, which aimed to deepen students' understanding of light behavior, especially the dispersion and scattering that lead to rainbow formation.

By understanding the concept of scattering of light, students explored about light that as it passes through different media, can scatter. This scattering plays a role in phenomena like the blue sky and rainbows. The experiment helped students visualize how particles interact with light, especially when it enters a new medium.

The experiment demonstrated that white light consists of various colors—represented as VIBGYOR (Violet, Indigo, Blue, Green, Yellow, Orange, Red)—which separate when passing through a prism due to varying wavelengths. The primary goal was to show students the rainbow-like band formed when white light disperses through a prism, creating a visible spectrum. This visual representation allowed students to relate the experiment to natural rainbows. The experiment illustrated the concept of light refraction and how it disperses when passing through a glass prism, separating into a rainbow band. Students learned that each color bends differently due to its wavelength, creating a gradient of colors.

The experiment effectively demonstrated the dispersion of light, allowing students to visualize a mini rainbow and understand light's behavior in new environments. It encouraged curiosity about light and color in the natural world, deepening their grasp of foundational scientific principles.

# RESONANCE FROM THE PARENTS' HEART

had the pleasure of attending the recent Sports Day. It was an event filled with excitement, sportsmanship, and remarkable displays of talent and teamwork.

The day began with a vibrant opening ceremony featuring a parade by the students, which set the tone for the event. The enthusiasm was contagious!

Overall, the Sports Day was a resounding success. It provided a platform for students to showcase their athletic abilities, fostered a sense of community, and underscored the importance of physical fitness and teamwork. The dedication of the staff, students, and volunteers was evident, and their hard work paid off. I eagerly look forward to the next Sports Day event!

Thank you Mam for pulling off a big show so perfectly.. hats off to you all for managing it so well 🙌🙌. I hope u get some good rest over the weekend

Dear ma'am, it was an absolute delight to watch the little ones perform. Each act was filled with charm, enthusiasm, and talent, making it a truly memorable experience. The entire show was beautifully organized, and every detail reflected the immense effort and dedication behind it. Thank you for all the hard work and care.

Dear Ma'am,

I would like to thank the whole team of St. Xavier's High School of putting up such a wonderful show for us 😊 We could see the dedication and tremendous hard work the teachers, staff and students did throughout 🙌🙌 It looked very colourful 🌈 But one thing I would like to add upon is that it should have started early, so that we could see the prize distribution there only. We never get assembly pictures hence won't be able to see those pictures 😞

Dear Teachers,

We sincerely thank you for your hard work, enthusiasm, and dedication in making the Sports Day event a grand success. Your planning, and seamless coordination ensured a memorable day for all students and parents.

Your efforts in encouraging student participation and sportsmanship were truly commendable. We deeply appreciate your commitment to creating such a vibrant and engaging atmosphere. Thank you once again for making this event a grand success!
